STRANGER THAN FICTION!

A Wife and Son, Deserted for Twenty-Four Years, Appear at the Funeral of Nathaniel E. Robinson.

MANCHESTER, N. H., Dec. 30.—The funeral yesterday of Nathaniel E. Robinson, the overseer who committed suicide Christmas day, brought to light a remarkable story of desertion.

Robinson, during his twenty-four years residence here, had claimed that he had not a living relative in the world.

He was to have been married in the spring to Miss Annie Hayes. At the obsequies yesterday a woman and a boy presented themselves as the wife and son of the dead man, and produced evidence to that effect.

From their story it appears that some twenty-four years ago Robinson was an overseer in a Providence mill, married and had two children. He told his wife he was going where he could make more money and that he would send for his family when he became settled. He left home and from that day until the publication of the story of his suicide, the wife had no word from her husband. An article published last week in a Providence newspaper concerning the death of the overseer, led to the attendance of his wife and child at the funeral.

WILL NOT STRIKE.

Pittsburg's Street Cars Will Not Be Tied Up.

PITTSBURG, Pa,, Dec. 30.—It is the general impression to day that the threatened strike of the grip men and conductors on the Fifth avenue line of the Pittsburg Traction company will not materialize. A series of rumors that can not be traced to authentic sources, are in circulation, one of which is that a meeting of the employes will be held to-night, and a general tie up ordered for to-morrow morning unless the demands of the men are acceeded to and the discharged men are reinstated.

Several of the employes were interviewed to-day and agreed in the statement that they do not contemplate engaging in a strike and admitted that the officials of the company were justified in removing the men relieved from duty yesterday and this morning, about sixteen in all. To-day the cable cars are running regularly, while nothing at present indicates that a general strike will be declared.

AN UNKNOWN ASSASSIN

Enters a Home and Murders a Man and His Wife.

BOSCOBET, Wis., Dec. 30.—A double murder was committed at Mount Sterling, Crawford county, about twenty miles from this city, between 3 and 4 o'clock yesterday morning. Jerry O'Neil and his wife were fatally shot while in bed, the former in the breast and the latter in the stomach, by an unknown assailant.

The victims were well-to-do and inoffensive people. They were about fifty years of age. The shots awoke two daughters who slept near the old folks. Their cries summoned the rest of the family, who were in the second story, but the murderer had escaped. What the object was is not known, as nothing was stolen. There were eight members of the family in the house at the time, most of them full grown people.

MR. PARNELL

Is Interviewed Regarding the O'Shea Divorce Suit.

DUBLIN, Dec. 30.—Mr. Parnell writes to the *Freeman's Journal*, stating that he has not as yet received notice of the filing of a divorce suit by Captain O'Shea against his wife and in which he is named a co-respondent.

Mr. Parnell states that he had constantly resided at Eltham since 1880, and was frequently there in the absence of Captain O'Sbea and that the latter was cognizant of the fact. He further declares that the action of Captain O'Shea in bringing the suit was instigated by Mr. Houston, secretary of the Irish Royal and Patriotic Union, for the purpose of creating a feeling against him and diminishing the amount of damages that may be awarded him in his libel suit against the *Times*.

ASPHYXIATED.

A Lady and Two Daughters Meet Death in a Hotel.

SAN FRANCISCO, Dec. 30.—Mrs. Erwin and her two daughters, Mary and Bessie, from Benton county, Missouri, were found asphyxiated in Oakland yesterday morning.

The three ladies were assigned to the same room on Saturday night and not being accustomed to the use of gas, the hotel clerk showed them how to turn it on and off. Yesterday morning the three were found dead in bed and an examination showed that the gas had been turned but half way off.

Mrs. Erwin's husband has been in this state about six months and had just rented a farm in Ventura county, to which place his family were en route to join him.

CRIME'S CALENDAR.

Tragedies Enacted in Different Parts of the Country.

EVANSVILLE, Ind., Dec. 30.—Shortly after 1 o'clock yesterday morning a negro named Bill Taylor went to a slaughter house just north of the city, where he commenced to quarrel with a negro employe of the establishment, Charles Williams, about a woman. The quarrel ended in Taylor sending a bullet in his rival's abdomen, from the effects of which Williams will probably die. Taylor was arrested.

NEW YORK, Dec. 30.—Henry C. Moller, a wealthy Hoboken, committed suicide last night, by blowing out his brains with a revolver. He was thirty years old, married, and had two children. He lived on the income of the fortune left by his father, Christian Moller, the sugar refiner, who committed suicide seven years ago. It is supposed Moller was temporarilly insane.

SHAWNEETOWN, Ill., Dec. 30.—On board the E. G. Ragon, yesterday, a colored hand, who came from Mount Vernon, was assaulted with a club and his skull fractured. It is charged that the deed was done by the second cook. The injured man was thrown off and left on the wharf boat. The sheriff was called but arrived too late to arrest the assailant, as the boat had gone. The injured man will probably die.

GRAFTON, W. Va., Dec. 30.—Joseph Griffith, a prominent Taylor county farmer, was fired upon early Friday morning and seriously wounded, three balls taking effect. Charles Mason is under arrest on suspicion.

NEW YORK, N. J., Dec. 30.—Samuel E. Scudder, alias Samuel E. Johnson, a colored hostler, Saturday night attempted to murder his wife's father and brother, but the balls sped wide of the mark. Scudder was subsequently found by a policeman, and drawing a pistol shot himself. He will die.

BURIED THE WORKMEN.

The Walls of a New Building Fall at St. Louis, Mo.

ST. LOUIS, Mo., Dec. 30.—The Academy of Music in course of erection, on Thirteenth street and Washington avenue, fell in a heap at 10 o'clock this morning, burying several workmen on the works. The building has gone up as high as the third story. Fifty workmen were in the building. A number of them are missing and firemen are at work searching the ruins.

LATER.

Eight men were buried beneath the debris. Firemen were summoned and began clearing away the ruins. Wm. L. Ford, a tinner, was fatally hurt. The remainder of the workmen caught in the falling building were more or less injured, but it is thought none fatally. No cause is given for the collapse of the structure, but it is said to be due to a vein of quick sand upon which it was built. The loss will be about $5,000.

MANTWILL'S MURDERER.

The Perpetrator of the Deed Undiscovered--Eberling and Mrs. Mantwill Released.

CHICAGO, Dec. 30.—Both Bruno Eberling and Mrs. Mantwill were released from the county jail this morning. They were held by the coronor's jury for the murder of Max Mantwill. The habeas corpus proceedings for their release were to have been heard this morning, but States Attorney Longenecker concluded not to oppose them and the man and woman were allowed to depart. They were released on bonds of $1,000 each, being their own sureties, but this was done simply to hold them as witnesses.

KEMMLER'S FATE!

The Law Executing Criminals by Electricity Held Constitutional in New York.

ROCHESTER, N. Y., Dec. 30.—Owing to the fact that Judge Barker will retire from the bench on the 31st instant, the judges of the general term for the fifth department have been holding counsel over the decision for the October term. This morning a decision in the Kemmler case with a long opinion by Judge Dwight was handed down.

It will be remembered that Kemmler is the murderer condemned to death under the new law providing for the execution of criminals by electricity.

Judge Dwight, in his opinion said: 'A writ of habeas corpus was sued out, alleging that Kemmler was sentenced to undergo a "cruel or unusual punishment' contrary to the constitution of the state of New York and of the United States. An offer was made to prove that the punishment as prescribed by the statute was cruel and unusual."

After reviewing the experiments made upon animals with electricity and accidental deaths of men through the same instrumentality, the judge concludes:

"The light of the scientific evidence in this case is sufficient, as we think, to remove every reasonable doubt that the passage of a current of electricity of a certain well determined intensity through the vital parts of the body, under certain conditions of contact and resistence, must result in instant death. If the question were of the advisability in the change of the mode of inflicting death by capital punishment the discussion might be prolonged. As we are confined to the question of constitutionality, we deem further discussion unnecessary. The order dismissing the writ of habeas corpus and remanding the prisoner must be affirmed."

WAYS AND MEANS COMMITTEE.

They Listen to Talks on Tariff From Different Speakers.

WASHINGTON, Dec. 30.—The house committee on ways and means met this morning to hear persons interested in the chemical industry. A large number of representatives of this interest were present. H. Bower, of Philadelphia, told the committee of the magnitude of the chemical industry. He objected to the provision of the senate bill which takes carbonate of potash from the dutiable list and places it on the free list. The present rate of 20 per cent. was a moderate one.

Mr. Armstrong, the president of the Pennsylvania salt company, advocated a specific duty of a quarter of a cent per pound on sulphate of soda, instead of the present rate of 20 per cent. advalorem.

H. B. Rosengarten, of Philadelphia, representing the quinine manufactories, advocated the restoration of the duty on quinine. The number of quinine factories in this country had been reduced from five to three. The restoration of duty would increase its manufacture in this country. The price of quinine had fallen on account of the large production of cichinco bark. In answer to questions from Mr. Carlisle he said that while the restoration of the duty would increase the price of quinine, the increase would be small.

W. D. Cogswell, of Syracuse, who represented the only manufactory of caustic soda, soda ash, and bi-carbonate of soda in this country, said the senate bill was perfectly satisfactory so far as the industries he represented were concerned. To take the duty of $5 per ton off of soda ash, continue work, and not reduce wages would, he believed, result in a loss to the manufacturer. The first year that soda ash was manufactured in this country the manufacturers lost $4 per ton.

A. Penrose Allen, of Philadelphia, manufacturers of phosphorus, advocated a decided increase of duty on this product. He wanted a specific duty of twenty-five cents a pound on phosphorus. The senate bill put the duty at ten cents, while the Mills bill put it on the free list. A duty of twenty-five cents per pound would enable the phosphorus manufacturers to succeed without increasing the price.

W. D. Farris, secretary of the Baker Castor Oil company, of New York, read a statement concerning the manufacture of castor oil in this country. He held that the present duty of 80 cents per gallon was not excessive. The senate bill reduced the duty to 50 cents, and the Mills bill to 40 cents. If the castor oil produced in India were admitted free the American manufacturers would be driven out of business.

Thomas White, of the Brooklyn sulphur works, advocated a reduction of the duty on sublimated flour from $20 to $15 per ton.

F. Reawoole, of New York, manufacture of glycerine, metyliated spirits, varnishes, and alcohol, advocated the abolition of taxes on alcohol.

LITTLE TICKS.

The Wires Flash the Day's News Into Our Office.

CHICAGO, Dec. 30.—The Rev. Walter Forsyth, a resident of Chicago for over forty-two years, and a well known Presbyterian minister, died at his home, No. 5,142 Stewart avenue, Englewood, at 10 o'clock, yesterday morning, in the fifty-sixth year of his age.

BLOOMINGTON, Ill., Dec. 30.—M. G. Patterson, of Decatur, who is the contractor for the brick work of the new buildings at the soldiers' orphans' home, disappeared last Tuesday evening, and has not been seen since then. It is believed that he has been foully dealt with. He drew $1,000 from a bank that day to pay his employes, and about dusk took a street car for Normal.

PORTLAND, Ore., Dec. 30.—A ten-round glove contest, Queensburry rules, between James Corbett and Dave Campbell, a local champion, came off last night at the Mechanics' Pavillion and witnessed by 3,000 people. Honors were about evenly divided from the start. In the eighth, ninth and tenth rounds some hot work was done. The referee declared the match a draw.

VICTORIA, B. C., Dec. 30.—The first sealing schooner to get away for the yearly southern cruise was the schooner Triumph, which sailed Saturday with an experienced crew of seal hunters. The balance of the fleet will sail in a few days for their southern cruise. Far from being discouraged by last years seizures or by the non-settlement of the Behring Sea dispute, sealing men here are active. More vessels will leave this port for the Behring Sea the coming season than ever before.

DENVER, Col., Dec. 30.—It is stated that S. H. H. Clark, general manager of the Missouri Pacific, has been tendered the presidency of the Union Pacific railway, Charles Francis Adams being anxious to resign the office.

LONDON, Dec. 30.—The bank of England's rate of discount has been advanced to 6 per cent.

ROCHESTER, N. Y., Dec. 30.—Otto Betz, a photographer, committed suicide in the Elwager and Barry grounds. Family trouble led to the act.

BOSTON, Dec. 30.—Ex-Fire Commissioner Henry W. Longley died at his residence in this city early yesterday morning after a brief attack of pneumonia. Mr. Longley was afflicted with influenza last week and apparently recovered from the attack, when pneumonia set in, with fatal result.

CHICAGO, Dec. 30.—The report circulated this morning that a terrible wreck had occurred on the Illinois Central is now found to be untrue.

AN ARKANSAS STRANGER

Puts Bullets Into the Bodies of Two Noted Desperadoes.

TEXARKANA, Ark., Dec. 31.—On Christmas day, two noted desperadoes, Red Lendall and Choctawa Pete, rode into the town of Tishwawa.

They had been drinking and immediately took possession of the main street, firing their revolvers recklessly and driving everybody within doors.

While this was going on a well mounted stranger with a veritable arsenal around his waist, arrived. The new comer was supposed to be a comrade of the outlaws by the inhabitants, but it turned out he was a stranger.

When he went to hitch his horse Lindall cut the halter. The stranger protested, whereupon Pete covered him with a revolver and called upon Red to disarm him.

The stranger waited until the latter was close to him, when he drew his revolver and shot Lindall through the heart. He then opened fire on Choctaw Pete and sent two bullets into his head, killing him instantly.

The stranger offered to give himself up, but finding no one willing to arrest him, rode leisurely off. His identity is unknown.

SIEBOLD SUCCEEDS DIEBOLD.

John Siebold of the Sixth Ward, Is Appointed a Policeman.

This afternoon the police commissioners met and appointed John Siebold, of the Sixth ward, to succeed Henry Diebold on the police force.

Mr. Siebold is well adapted to wear the star and is a steady and worthy young man.

He will be assigned to duty shortly. He was formerly a boiler maker in the Wabash shops.

ELEVEN CREMATED.

The Burning of a Dwelling at Hurontown, Mich., Results in the Death of Eleven Persons.

ISHPEHING, Dec. 30.—At Hurontown, a town near Houghton, Mich., where two women and a baby were burned to death a few days ago, eleven persons perished by fire yesterday morning. Theodore Grass, aged fifty-seven, and his wife, Mary, aged forty-seven, returned from an old people's dance early in the morning. Their son, Theodore, jr., returned from his work in the stamp-mill a short time afterward. All went to bed.

A quarter of an hour later Theodore, jr., heard screams in his sister's room. He and his brother, Nicholas, aged seventeen, attempted to reach the next room, but the flames drove them back. With bare feet and hands they broke the glass and sash of the only window in the room, and jumped to the ground, attired only in their night shirts. A terrible blizzard was raging, and they could not break the windows.

They then rushed to a neighbor's for help. The fire was extinguished an hour later and to-day eleven bodies were recovered. They were the remains of Theodore and Mary Grass and their children, Kate, John, Antoine, Mary, Lena, Lizzie, Joseph and Michael, and Lena Erb, of Lake Lindon, Mich., who was visiting the girls of the Grass family. The bodies are in a temporary morgue at the Houghton fire engine house.

CHICAGO'S ALL RIGHT.

La Grippe Has Not Made Its Appearance in That City.

CHICAGO, Dec. 30.—The Russian influenza has not yet made its appearance in Chicago. This is the opinion of the medical men of the city, many of whom were interviewed by the *Herald* yesterday. The doctors were unanimous in saying that the reported cases of the disease that have stirred up the town during the last week were nothing more than plain, ordinary, every-day colds.

NEW YORK, Dec. 30.—The prevailing epidemic of influenza, has taken a firm hold upon the police force of this city. The returns for to-day show that 295 members of the force have reported sick and at least two-thirds of that number are laid up with "LaGrippe."

SARA FAINTED.

A Fire in a Paris Theatre Frightens Mme. Bernhardt.

PARIS, Dec. 30.—The pyre to be used in the play of Joan d'Arc by Sara Bernhardt, became ignited last night by the surrounding fire during a dress rehearsal. Mme. Bernhardt, who was on the pyre, received no injury. She fainted from fright, however. Two scene shifters were seriously burned in their efforts to extinguish the flames.

LONDON, Dec. 30.—The article by Mr. Gladstone favoring a revival of confession in England, was written forty-five years ago. Mr. Gladstone has requested the editor who just published it as representing the authors present views, to explain his unauthorized action.

COLONEL DUDLEY.

He Need Not Expect Any Favors From New York Courts.

NEW YORK, Dec. 30—Judge Lawrence of the supreme court, handed down a short opinion in the chambers to-day in which he says, in effect, that Colonel W. W. Dudley, who is sueing half a dozen New York newspapers for alleged libel, in the publication of the "blocks of five" letter, can not expect favors from the court when he persistently refuses to obey its orders.

The motion by the plaintiff to vacate an order for substituted service on him of an order for his examination before trial to enable the defendant to prepare an answer, is denied.

More Cronin Suspects.

CHICAGO, Dec. 30.—States Attorney Longenecker said that he had secured considerable evidence against four or five other mem who were suspected of complicity in the Cronin murder conspiracy, and that he might before long take steps to have them indicted and brought to trial. He declined to mention their names at this stage of the matter.

A Convict Re-Captured.

JEFFERSONVILLE, Dec. 30.—Clay Davidson, the notorious convict who instituted a hide-out, was found Saturday. He was under a pile of molding flasks nearly dead for want of air.

Mr. Samuel Foster left for Indianapolis to-day.

The population of Japan is just under 40,000,000.

HARD CIDER.

It Turns the Heads of Women--Boys Arrested For Larceny.

There was a lively police court this morning.

Emma Johnson and Alice ——— looked upon the cider when it was hard, then unwisely left their domestic haunts to find trouble. They were gratified. At the corner of Calhoun and Main streets a third party of female persuasion met the pair, as a result of which meeting a spirited argument arose, followed by a Simon-pure female hair-pulling and nail-scratching engagement. At this juncture Lieut. Leonard Fuchshober appeared, whereupon the third party escaped. The above two were locked up and this morning pleaded guilty and paid a fine of $1 and costs for drunkenness.

Officer O'Ryan placed Dan Schantz and Frank Grubbs under arrest on suspicion of having been accessory to the theft of some whisky, cigars, etc., from the grocery and saloon of John Sheffer & Co., on Grand street. Both boys were bound over in the sum of $500 to await the arrest of two other youthful pals for whom affidavits are made out.

Thomas Carey and John Harrison arrested by Officer Patton and John Shea arrested by Officer Limecooly were sent to jail for intoxication.

DANGER OF FIRES.

The Fire Engine Prevented From Reaching a Fire by Muddy Streets.

The fire department responded to two calls yesterday or rather one portion of the department did.

Shortly before noon a chimney fire at the residence of Caroline W. Phillips, corner of Main and Ewing streets, called the department.

About 5 o'clock in the evening an alarm was sent in from box 5-2, which proved to be another chimney fire at the residence of Henry Werner, 24 Locust street. The streets were so absolutely muddy that the engine team could not proceed more than a few blocks. That part of the apparatus was returned to the engine house.

The fire engine weighs, with three men, something like 4,000 pounds, or nearly three tons, which easily explains why such difficulty was met with.

While the city has such muddy streets to hamper the department it is a dangerous time for a visitation of the fire fiend.

FAVORED BY A KING.

King Alfred, of Saxony, Responds to the Request of a Fort Wayne Admirer.

Mr. Truenbach, is one of Fort Wayne's German citizens whose patriotism for the star and stripes is as enthusiastic and fervent as many who have never seen other than American soil.

He has in his home a portrait of Grover Cleveland and as a fitting companion-piece he tried to secure the likeness of King Alfred, of Saxony. But photos of King Alfred are not standard publications, and after he had almost despaired of securing his coveted prize, he indicted his request to the king himself at Dresden, to the effect that the recipient of the letter would give the same attention.

This happened two months ago. The matter had almost been forgotten when the picture of King Alfred arrived yesterday. It is a superb photo, two and a half feet high, executed by the court photographer, and encircled with a beautiful gold frame of oval form with the royal crest on the bottom. The picture was accompanied by a letter from Consul Pollier. Mr. Truebenbach is very proud of his treasure and will probably present the picture to the German military society.

MONDAY, DEC. 30, 1889.

SECURE your calendar for 1890.

FIRES have burned $400,000 worth of churches in the last year.

YESTERDAY dawned with spring-day weather, but ended rather winterish.

THE Rev. Edward Abbott, who has been elected missionary bishop to Japan, is said to be the original "Rollo," of the "Rollo books," written by his father, Jacob Abbott.

THE ice men are not wearing a very cheerful smile over the prospects for a supply of the congealed liquid for next summer's demand. The supply now is nearly exhausted and unless there is a good spell of very cold weather from now on, ice will be at a premium next summer.

SOUTHERN papers are protesting, and justly, against the fashion northern newspapers have of naming every negro brawl "a race war.' The northern states furnish six to one more Christmas tragedies sprung from drink, than the states of the south, but they are not distinctively classified and named.

ROBERT BROWNING, it now appears pretty well established, was of Hebrew origin. His mother's maiden name was Wiedemann. His father was a trusted clerk, of the Rothschild at a time when the famous firm was supposed to employ none but persons of their own faith. But the family passed for Dissenters. The poet always took the keenest interest in Jewish history and legend.

THE SENTINEL is not opposed to the paving of the streets of the city. It believes that every street within the limits of the corporation should be placed in the best possible condition. It is in favor of any improvement that will add to the convenience of our people or advance the welfare of the corporation, but in making any improvement where the expenditure of a large amount of money is concerned, it cautions careful consideration before increased taxation is incurred.

THE Angola *Herald* says: "It is a mistake on the part of certain of the democratic press to attempt to make it appear that there is an effort on the part of P. S. O'Rourke to defeat Hon. C. A. O. McClellan's renomination. Both these gentlemen are sound democrats and have too much good sense to enact another Lowry scene. It is safe to say that when the proper time comes there will be harmony between these gentlemen and personal desires will be sacrified in the interest of democracy."

CAPTAIN O'SHEA, ex-member of the English house of commons, has filed in London a petition for divorce from his wife on the ground of adultery, naming Charles Stewart Parnell as co-respondent. It is the generally accepted theory that the action brought by Captain O'Shea, ostensibly against his wife, but really against Mr. Parnell, is purely a political move, and the suspicion is growing that the captain was induced to spring the suit just at this time in order to counteract the effect of the report of the special commission respecting the forged letters. For O'Shea himself nobody has had a particle of respect.

THINK ABOUT IT.

The old year has but one more day to run. To-morrow's sun will arise and set and when it comes above the eastern horizon again it will dawn upon a new year. It will be a day fraught with interest and importance to the business world. Men will review their business transactions of the year, strike a balance on the debit or credit side, and make new plans and a new start for the year which they will then enter.

It is also a time when many men put into effect new resolves as to their manner of living. Habits, which have been ruinous, are dropped and they begin a new life. They may have been the slaves of rum before. They resolve with the coming of the new year to shake the habit and be a victim to it no more. Such a resolve, if kept, will prove a blessing to any man. Listen, while we tell you what Tom Marshall said about sobriety, but first let us tell you who Tom Marshall was.

Tom Marshall was a congressman. He was a brilliant man—large-hearted, noble and generous—but like so many of the gifted men of our nation, he fell a victim to the wine cup. He was a hard drinker and while in congress it was wrecking his life, but one winter a congressional temperance society was formed and Tom Marshall joined it. Some time afterwards he made a speech at one of its meeting, and used this sentence, which is said to be the longest on record:

SIR: I would not exchange the physical sensations, the mere sense of animal being, which belong to a man who totally refrains from all that can intoxicate his brain or derange his nervous structure, the elasticity with which he bounds from his couch in the morning, the sweet repose it yields him at night, the feeling with which he drinks in, through his clear eyes, the beauty and the grandeur of surrounding nature; I say, sir, I would not exchange my conscious being as a strictly temperate man, the sense of renovated youth, the glad play with which my pulses now beat healthful music, the bounding vivacity with which the life blood courses its exulting way through every fibre of my frame, the communion high which my healthful ear and eye now hold with all the gorgeous universe of God, the splendors of the morning, the softness of the evening sky, the bloom, the beauty, the verdure of the earth, the music of the air, and of the waters; with all the grand associations of external nature re opened to the fine avenue of sense; no, sir, though poverty dog me, though scorn pointed its slow finger at me as I passed, though want and destitution and every element of earthly misery, save only crime, met my wakening eye from day to day; not for the brightest and the noblest wreath that ever encircled a statesman's brow; not if some angel commissioned by heaven or some demon sent fresh from hell to test the resisting strength of virtuous resolution, should tempt me back with all the wealth and all the honors which a world can bestow; not for all that time and earth can give would I cast from me the precious pledge of a liberated mind, this talisman against temptation, and plunge again into the dangers and horrors which once beset my path, so help me heaven, as I would spurn beneath my very feet all the gifts the universe could offer and live and die as I am, poor but sober.

REV. W. M. VANSLYKE

Delivers an Impressive Talk at the Y. M. C. A.

Rev. W. M. VanSlyke, the pastor of the Berry street M. E. church, conducted the services at the City department of the Young Men's Christian Association yesterday afternoon and delivered a discourse that was full of interest and power.

He took no text nor did he announce his subject but it was soon seen, from the nature of his remarks, that his theme was Bible reading. The Bible, he said, was apt to be, by many persons, the least read of all books and yet it was one of the supremest interest and importance to the world and should be properly read and carefully studied.

It revealed the will of God and told of the rich legacies that he had given to man. It was a prescription, more valuable and more precious than any ever written by a physician's hand, for it cured the greatest of diseases—sin. It was a map. On the tempestuous sea of life, where the frail human bark was in danger of being wrecked, it revealed the safe path. It guided the mariner over the waves and past danger points and brought him at last to the port of Heaven.

He urged upon his hearers the reading of the holy book in a studious and understanding way. Christians did not study it enough. It was the best of books and we should learn all of its precious promises to us. Accompany the reading with prayer and ask God for blessings with the expectation of getting them, but do not stop there. Go and work for the blessings asked and God will shower them down on you and help you to bring others within the fold of Christ.

The address was an earnest, eloquent one and had the effect of making a very interesting after-meeting, in which a number of other persons participated.

THE STATE'S FINANCES.

Exhibit of Money Received and Expended Called For by the Superintendent of the Census.

In compliance with a request from Hon. Robert P. Porter, superintendent of the eleventh census, the state auditor has prepared a statement or all financial matters connected with the state government from October 31, 1880, to October 31, 1889, both years included. The blank was forwarded from the census bureau at Washington and is designed to cover the receipts and disbursements for the period named. Similar statements are, no doubt, being obtained from all the states of the Union, to be incorporated in the report of the bureau. The following summary contains the more important totals of the several items of receipts and expenditures, as shown in the auditor's statement:

RECEIPTS.

General taxes, real, personal and poll	$28,548,044
Corporations and companies	730,121
Benevolent institutions	176,866
Penal and reformatory institutions	1,989,533
Sales of property	81,986
The income from funds	4,940,256
Miscellaneous	4,201,424
Net receipts	$40,767,482

EXPENDITURES.

Legislative	$ 636,961
Executive	475,647
Judicial	2,058,654
Military	33,922
Educational	538,505
Common schools	19,613,035
Benevolent institutions	4,046,919
Penal and reformatory institutions	2,562,536
Construction of buildings	4,266,540
Interest on state debt	3,119,732
Miscellaneous	2,926,255
Net expenditures	$40,877,125

The several loans made by the state since 1889, aggregating $3,500,000, are included in the miscellaneous receipts, but the loan of nearly $4,000,000 under the refunding of the common school bonds is not reckoned at all, as it was simply changing the form of the debt which the state owed to itself. A distinction is made between money paid out in support of the colleges of the state and that going to the support of the common schools, for the reason that the funds are dissimilar in every particular. Adding the two items, "educational" and "common schools," found in the disbursement table, it will be seen that the state has paid out $20,151,540 for education in the last ten years, an average of something in excess of $2,000,000 annually.

EXPERTS WITH THE GUN.

The Beck-Erb Contest for the World's Championship Cup.

The match between George C. Beck, of Indianapolis, and Fred Erb, of Lafayette, champion of the world, will occur at the latter place Wednesday, February 19. It is for the world's championship cup, which Erb won from Charles Budd last month, and $50 a side. The match will be at fifty live pigeons, with thirty yards rise and eighty yards boundary. Five traps will be used, and Hurlingham rules govern. The event is exciting much comment, and a number of interested friends of both gentlemen will go to Lafayette from this city, to witness the important contest.

Eight Men Lynched.

CHARLESTON, S. C., Dec. 30.—A mob of several hundred masked men, broke open the Barnwell county jail at 2 o'clock Saturday morning and overpowered the jailer. They seized Ripley Johnson and Mitchel Adams, two murderers of James Hefferman, and six men held for the recent murder of Robert Martin, at Martin's, Barnwell county.

They were marched to the outskirts of the town, and in a few minutes the men were bound to the body of eight trees. The masked men then formed a line a short distance from them and poured volley after volley into the bodies of the negroes. The firing was the first intimation the people of the town had of the trouble. It seemed then as if the negroes would rise up and avenge the lynching.

Saturday the state teachers' association closed its sesssons. The paper upon the school system of Germany by H. M. LaFollette, superintendent of public instruction, delivered at that time, was considered a valuable contribution. The schools in Germany, he said, were divided into four classes, the volk schule, the raal, the gymnasia and the universities. An excellent and systematic method of instruction in music, industrial arts, gymnastics and religion was in vogue, and the length of a teacher's service, which is twenty years, is five times as long as the usual service of American teachers. Professors Dryer, Lane and others from this city were present.

J. E. Clarke, an aged resident of Kokomo, while suffering from a partial paralytic stroke, went to George Weykle's bath rooms, Friday night, to take a bath. He was assisted by Weykle, as he was almost helpless. Weykle turned on the gas full force and went to do something else while the water was getting warm. He forgot all about Clark, and, after some time, locked the bath room door and left the house. The gas was turned on full and Clark was so helpless that he could not turn it off or escape. Saturday morning the body of the old man was found thoroughly cooked and roasted in the bath. Weykle, it is claimed, is weak-minded.

We have heard many of our old friends say that Salvation Oil cured them of rheumatism. Those who have not tried it should do so. Our druggists sell it for twenty-five cents a bottle all the time.

Why suffer with a bad cold when one bottle of Dr. Bull's Cough Syrup will cure a cough of the worst kind. Dr. Bull's Cough Syrup is sold for 25 cents per bottle by all druggists in the United States.

Mr. Curtis declares in the last number of *Harper's Weekly* that Grover Cleveland is the most popular living American.

Love rules the court, the camp, the grove,
But this we find where'er we rove,
That SOZODONT alone supplies
The dazzling teeth and ruby dyes,
That lend a maiden half the charms
That win's her to her lover's arms.

Lord Macaulay's executors have in their hands some unpublished ballads of his that he wished should not be published.

Mr. Moore, the postmaster at Bradshaw, Va., after reading an advertisement of Chamberlain's Colic, Cholera and Diarrhœa Remedy, concluded to try a small bottle of it. He says: "I used it in two cases for colic and three for diarrhœa with perfect satisfaction. One dose gave relief in every case but one, and that was a bad case of colic and required the second dose. I have handled a great deal of patent medicine as agent and for my own use, but never tried any that gave as good results as 'Chamberlain's Colic, Cholera and Diarrhœa Remedy.' For sale at 25 and 50 cents per bottle by George H. Loesch.

The rainfall during autumn, 1889, was in excess. The precipitation during September, 1889, was 0.48 inches in excess; that of October was 0.96 inches deficient and November 1.23 inches in excess, therefore the excess in precipitation during the autumn was 1.09 inches. The normal temperature for autumn in Indiana, based upon eighteen years' observations, is 53.6. Nine autumns had a higher temperature than that, and nine lower. The mean temperature for the autumn of 1889 was 50.7, the autumns only two years, 1873 and 1880, having been cooler.

HERE IT IS!

The famous neverslip horse shoe with patent removable, steel centered, self sharping calks, has gained the day and can be found in our city.

Some of the main advantages which have commended it to popular favor, may be summarized, as follows:

1. It never slips in any direction.
2. The horse soon learns this fact, and consequently, whether pulling or trotting, will always do his best.
3. It saves the horse from sprains and bruises which constantly result from insecure footing.
4. It avoids the injury to the horse's feet caused by a too frequent resetting of the shoes.
5. It greatly lessens the danger of injury from calking.
6. It saves the time, both of the horse and owner, as the insertion of new and sharp Calks is the work of only a few minutes.
7. Its use facilitates all kinds of business. Livery keepers, and all whose horses are in constant requisition, are enabled by the use of this shoe to meet their engagements promptly, however slippery the traveling may be.

Owing to the great demand for this shoe, Geary & Perrey, the horse shoers, successors to Ersig & Geary, secured the agency for Fort Wayne, and are prepared to supply all sizes of calks and wrenches, &c., to persons desirous of useing them.

The reputation of Geary & Perrey, as horse shoers, is second to none in the city, and their endorsement of the shoe, guarantees satisfaction. Call on them for further information at

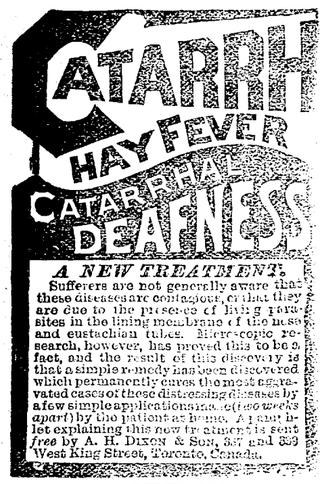
The True Elixir Of Life Hood's Sarsaparilla

Hood's Sarsaparilla purifies the blood, builds up weak and debilitated systems, gives strength to weakened nerves, overcomes that tired feeling, tones the digestive organs, invigorates and regulates the kidneys and liver, expels disease and gives vigorous health. Young people say: "It is the best medicine we ever took." Old people say: "It makes us feel young again."



A NEW TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been discovered which permanently cures the most aggravated cases of these distressing diseases by a few simple applications, often (two weeks apart) by the patient at home. A pamphlet explaining this new treatment is sent *free* by A. H. DIXON & SON, 337 and 339 West King Street, Toronto, Canada.

MONDAY'S DULLNESS.

Shows Itself in the News as Found Around the Busy Centers and the Budget is Uninteresting.

It was a dull day around the depots.

Holiday travel on the railroads is very light.

Many of the shop men are off on holiday vacations.

Most of the manufactories will work on New Years day.

Conductor G. P. Davis is spending the holidays at Chicago.

Ed Luke, of the Bass works, has returned from a visit to Ohio.

George Read is acting as conductor on the Pittsburg during the holidays.

Harry Hayes, machinist at the Bass works, has returned from Richmond, Ind.

Bert Baughman, of the Nickel Plate, has been off duty on account of rheumatism.

Frank Lonsberry, of White's wheel works, has returned to work after a few days' illness.

Robt. Holland, of the Pennsylvania company, has been at Crestline, Ohio, the last few days.

C. W. Cook, agent of the Nickel Plate at New Haven, is spending the winter in California.

Fred Olds has returned from Ohio, and resumed his position in the Pittsburg machine shops.

H. C. Barner, of the Jenney, has been off duty for a few days from injuries received to his fingers.

C. M. Jones, clerk at the Pittsburg freight office, has gone to Bucyrus, Ohio, for a few days.

Thomas Dorwin, Canadian passenger agent of the Missouri, Kansas and Texas railroad, is in the city.

P. S. Gilmore, of Chicago, general northern agent of the E. T. V. & G. railroad, is in the city.

Seventy-three repaired cars and twenty-one new cars were turned out of the Pittsburg car shops last week.

John Malt, of White's wheel works, is suffering from injuries received to a finger, by a splinter from a spoke

On account of the recent rains and mild weather for winter the road beds of some of the roads are considerably increasing their forces of section men.

Conductor Thorpe, of the Pittsburg road, is entertaining his brother, Fred Thorpe, who is connected with the Postal Telegraph company, at Pittsburg, Pa.

According to figures recently furnished by a celebrated statistician, the republic of the United States is the third richest country per capita on the globe, there being $800 for each inhabitant. A good many of the readers of this column are wondering, with our reporter, where their share is.

The New York, Chicago and St. Louis (Nickel Plate), which is practically a freight line, will show, this year, an increase in net earnings of fully $25,000, most of which has been made in the last four months, as the statement on September 30 showed an increase this year of only $7, 180.

"Is there anything new?" asked our reporter of C. J. Matsch, chief clerk in Superintendent Pickard's office, at the Bass works, this morning. "No," was the reply, "but there will be Wednesday." "What?" quickly answered the scribe, eager to get an item two days in advance. "The new year," coolly answered Matsch, and he went on writing at his books as if there was no joke intended.

Car-coupling can be deprived of its present frightful risk by an expenditure of $4 a car, say $4,000,000 on cars which this year earn not less $700,000,000. This will save annually at least 500 lives, 4,000 severe injuries and 15,000 slight wounds, or the casualities of a great historic battle with 50,000 men engaged. The railroads of the United States ought to be willing to do this without an act of congress.

The promotion of George Stevens to the position of general superintendent of the Chesapeake & Ohio road was gratifying news to his numerous friends in Indiana and Illinois, where he is so well known. Should he take some good men off of the Wabash road for the less important offices under his supervision it will not be a surprise. The office was a newly created one on that road, and the selection of Mr. Stevens to fill it by President Ingalls is very complimentary to the former.

BURNED BY GAS.

Christian Haffner, the Baker, Lights Natural Gas His Own Way.

Yesterday, Mr. Christian Haffner, the baker, went down into the basement of his new bakery, on East Lewis street, to light the natural gas under the ovens.

He turned on the gas first, unthinkingly, applied the match and ——! There was an explosion, although not a severe one. However, Mr. Haffner was burned about the face and hands, causing ugly blisters of a painful nature to form on several spots.

"Flame first; gas afterward."

THE women of Kansas do not mean to be left in the background. They put prohibition in the Constitution, they have full municipal and school ballot, coeducation in its State University, and the number of women preachers, doctors, and lawyers is larger than in any other State. The Assistant Attorney General is a woman, and women are farmers, bankers, County School Superintendents, editors, printers, and merchants. Women serve on the School Boards in every county, and there are women Treasurers of School Boards, Superintendents of Schools, Registers of Deeds, and at Cottonwood Falls the Police Justice is a woman.

THE King of Siam is a magnificent object in state attire. He glistens from head to foot with jewels worth more than $1,000,000. It is commonly reported in Bangkok that he has three hundred wives and eighty-seven children, though the exact figures have never been given to his subjects. He was a father at the age of twelve, and is now only thirty-six years old. If he lives a few years more he will be able to assume the title of "father of his country." The King is a good fellow, fond of a reasonable number of his children and very kind to his three hundred wives. He is very progressive and has done a great deal of good to Siam.

THE Century Publishing Company consumes nearly 200 tons of paper a month, and their paper bill amounts to about $300,000. Harper Brothers, for their illustrated papers and magazines, use annually about 25,000 reams, besides vast quantities of book paper for other publications. The Arkells use 30,000 reams annually for *Judge* and *Frank Leslie. Puck* requires about 12,000 reams per year.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

"It's always the survival of the quickest," said the cow-boy as he put up his smoking revolver, having shot his antagonist dead.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

"STOP"—Nature Has a Cure.

EATON RAPIDS, MICH.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

Sarah Bernhardt calls herself "the most etheral of women."

An old lady at Burke, Tex., who had been troubled with diarrhœa for over fifteen years, says that Chamberlain's Colic, Cholera and Diarrhœa Remedy did her more good than all the other medicines she had ever used. Mr. S. J. Treadwell, the leading merchant of the town, vouches for the above statement. For sale by George H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

A FRIEND IN NEED.

Bunco Steerer (to farmer)—Isn't this Mr. Swansdown of Grayneck Corners?

Farmer—That's me.

Bunco Steerer—My name is Jim Sharper, son of old man Sharper, the banker in your town.

Farmer—Your looks don't show it; but by gosh, Jim, I'm glad to see you! I dropped into Wall street to-day, and you've got to help me to get back to the Corners or I'll have to walk.

MATRIMONIAL AMENITIES.

Mr. Jason—Why ain't supper ready, I want to know?

Mrs. Jason—I was down town and got caught in the rain without an umbrella. I had to wait in a store until the storm was over.

Mr. Jason—So you did have sense enough to go in out of the rain, eh? Well, you are not an entire fool.

Mrs. Jason—No, only the better half of one.—*Terre Haute Express.*

Beauty and Utility.

No more appropriate or usesul Christmas present can be given by a parent to a son or daughter than a Caligraph Type Writer. The time is not far distant when a type writer will be found in every intelligent home. The educational value of a type writer is unquestioned. It assists in learning to spell correctly, and results in a close observation of the construction of sentences, and helps to form the habit of composition. W. E. McDermut is the Fort Wayne agent for the Caligraph, which embraces the latest and best improvements in writing machines. Call and get samples, and see the machine in actual operation. 14 jan1.

The Forum.

A MONTHLY REVIEW OF LIVING SUBJECTS

By the Foremost Writers in the World.

JOHN G. CARLISLE.

THE FORUM has won the highest place reached by any periodical; for it publishes articles by more authoritative writers and by more workers along instructive lines of activity than any other publication. It contains eleven studies of great subjects every month. It is impartial, giving hearings alike to each side. It is financially independent, and it belongs to no sect or party or "interest." It is never sensational, but it aims always to be instructive.

I consider THE FORUM as furnishing the most intelligent and sympathetic audience that a thoughtful writer can find to address in any land.—*Prof. ALEXANDER WINCHELL, of the University of Michigan.*

THE FORUM continues to hold its place as the foremost of our magazines, for the variety, the value, and the weight of its contributions.—*THE NEW YORK TIMES.*

Announcements of forthcoming articles can seldom be made long in advance, for THE FORUM'S discussions are always of problems of present concern. Every such problem that the year 1890 will bring forward will be discussed, whether in politics, or religion, or social science, or practical affairs. The January number will contain a reply by ex-Speaker J. G. CARLISLE to Senator Cullom's recent article on "How the Tariff Affects the Farmer."

Mr. H. F. Schnelker, of New Haven, brought an infant girl to the city to-day and left it at the St. Vincent's orphan asylum. The foundling was found in a basket on his door-step, where it was left last night.

Mr. and Mrs. Jacob Gruber, who have been in the city visiting for the past week, returned to their home last evening, at Bucyrus, O., and with them went their charming sister, Verona, of this city, who will remain there for several weeks.

George Wise, the champion speed skater of the state, has been challenged by Salters, of Tipton, Ind., to skate one mile at Indianapolis, New Years night for a purse and the championship of the state. Both men have good records. Wise defeated Fred Paul last week and has won several good races.

Mr. G. W. Graffe, whose condition of sickness has been mentioned from time to time in the daily press has been given up by his attending physicians Drs. Sweringen and McCullough. He is apt to die at any moment. This will be sad news indeed to the many who were his friends and acquaintances. Mr. Graffe is the president of the St. Bernard branch C. K. of A.

Mr. Mart Rehnen, a young man well known in this city, died Saturday evening, at his home, 64 West Wayne street, of typhoid pneumonia. He was taken sick three weeks ago, and has been confined to his home since. Mr. Rehnen was twenty-eight years of age, unmarried and was very popular with his friends. The funeral occurs to-morrow at 2 p. m., from the residence.

FRANK WELLING RESIGNS.

One of Coombs & Co.'s Efficient Men Drops Out to Engage in Business.

Mr. Frank Welling, who for many years past held a prominent position with Coombs & Co., resigned last Friday, the same taking effect the following day.

The announcement caused much surprise, as Mr. Welling held a foremost position of responsibility and trust in the establishment.

Mr. Henry J. Beuret, of the Coombs offices, will in all probability succeed Mr. Welling, as he is competent and worthy. If the place does not fall to him a gentleman from Chicago will be the man.

Mr. Welling has been to Coombs & Co. an energetic and faithful representative and much of the prestige was through his influence. He retires to engage in business for himself, but of what nature he was not prepared to inform a SENTINEL reporter to-day as a matter of news. However, it is said that he will engage in a business similar to that with which he has been connected.

STRANGER THAN FICTION!

A Wife and Son, Deserted for Twenty-Four Years, Appear at the Funeral of Nathaniel E. Robinson.

MANCHESTER, N. H., Dec. 30.—The funeral yesterday of Nathaniel E. Robinson, the overseer who committed suicide Christmas day, brought to light a remarkable story of desertion.

Robinson, during his twenty-four years residence here, had claimed that he had not a living relative in the world.

He was to have been married in the spring to Miss Annie Hayes. At the obsequies yesterday a woman and a boy presented themselves as the wife and son of the dead man, and produced evidence to that effect.

From their story it appears that some twenty-four years ago Robinson was an overseer in a Providence mill, married and had two children. He told his wife he was going where he could make more money and that he would send for his family when he became settled. He left home and from that day until the publication of the story of his suicide, the wife had no word from her husband. An article published last week in a Providence newspaper concerning the death of the overseer, led to the attendance of his wife and child at the funeral.

WILL NOT STRIKE.

Pittsburg's Street Cars Will Not Be Tied Up.

PITTSBURG, Pa., Dec. 30.—It is the general impression to day that the threatened strike of the grip men and conductors on the Fifth avenue line of the Pittsburg Traction company will not materialize. A series of rumors that can not be traced to authentic sources, are in circulation, one of which is that a meeting of the employes will be held to-night, and a general tie up ordered for to-morrow morning unless the demands of the men are acceeded to and the discharged men are reinstated.

Several of the employes were interviewed to-day and agreed in the statement that they do not contemplate engaging in a strike and admitted that the officials of the company were justified in removing the men relieved from duty yesterday and this morning, about sixteen in all. To-day the cable cars are running regularly, while nothing at present indicates that a general strike will be declared.

AN UNKNOWN ASSASSIN

Enters a Home and Murders a Man and His Wife.

BOSCOBEL, Wis., Dec. 30.—A double murder was committed at Mount Sterling, Crawford county, about twenty miles from this city, between 3 and 4 o'clock yesterday morning. Jerry O'Neil and his wife were fatally shot while in bed, the former in the breast and the latter in the stomach, by an unknown assailant.

The victims were well-to-do and inoffensive people. They were about fifty years of age. The shots awoke two daughters who slept near the old folks. Their cries summoned the rest of the family, who were in the second story, but the murderer had escaped. What the object was is not known, as nothing was stolen. There were eight members of the family in the house at the time, most of them full grown people.

MR. PARNELL

Is Interviewed Regarding the O'Shea Divorce Suit.

DUBLIN, Dec. 30.—Mr. Parnell writes to the *Freeman's Journal*, stating that he has not as yet received notice of the filing of a divorce suit by Captain O'Shea against his wife and in which he is named a co-respondent.

Mr. Parnell states that he had constantly resided at Eltham since 1880, and was frequently there in the absence of Captain O'Shea and that the latter was cognizant of the fact. He further declares that the action of Captain O'Shea in bringing the suit was instigated by Mr. Houston, secretary of the Irish Royal and Patriotic Union, for the purpose of creating a feeling against him and diminishing the amount of damages that may be awarded him in his libel suit against the *Times*.

ASPHYXIATED.

A Lady and Two Daughters Meet Death in a Hotel.

SAN FRANCISCO, Dec. 30.—Mrs. Erwin and her two daughters, Mary and Bessie, from Benton county, Missouri, were found asphyxiated in Oakland yesterday morning.

The three ladies were assigned to the same room on Saturday night and not being accustomed to the use of gas, the hotel clerk showed them how to turn it on and off. Yesterday morning the three were found dead in bed and an examination showed that the gas had been turned but half way off.

Mrs. Erwin's husband has been in this state about six months and had just rented a farm in Ventura county, to which place his family were en route to join him.

CRIME'S CALENDAR.

Tragedies Enacted in Different Parts of the Country.

EVANSVILLE, Ind., Dec. 30.—Shortly after 1 o'clock yesterday morning a negro named Bill Taylor went to a slaughter house just north of the city, where he commenced to quarrel with a negro employe of the establishment, Charles Williams, about a woman. The quarrel ended in Taylor sending a bullet in his rival's abdomen, from the effects of which Williams will probably die. Taylor was arrested.

NEW YORK, Dec. 30.—Henry C. Moller, a wealthy Hoboken, committed suicide last night, by blowing out his brains with a revolver. He was thirty years old, married, and had two children. He lived on the income of the fortune left by his father, Christian Moller, the sugar refiner, who committed suicide seven years ago. It is supposed Moller was temporarily insane.

SHAWNEETOWN, Ill., Dec. 30.—On board the E. G. Ragon, yesterday, a colored hand, who came from Mount Vernon, was assaulted with a club and his skull fractured. It is charged that the deed was done by the second cook. The injured man was thrown off and left on the wharf boat. The sheriff was called but arrived too late to arrest the assailant, as the boat had gone. The injured man will probably die.

GRAFTON, W. Va., Dec. 30.—Joseph Griffith, a prominent Taylor county farmer, was fired upon early Friday morning and seriously wounded, three balls taking effect. Charles Mason is under arrest on suspicion.

NEW YORK, N. J., Dec. 30.—Samuel E. Scudder, alias Samuel E. Johnson, a colored hostler, Saturday night attempted to murder his wife's father and brother, but the balls sped wide of the mark. Scudder was subsequently found by a policeman, and drawing a pistol shot himself. He will die.

BURIED THE WORKMEN.

The Walls of a New Building Fall at St. Louis, Mo.

ST. LOUIS, Mo., Dec. 30.—The Academy of Music in course of erection, on Thirteenth street and Washington avenue, fell in a heap at 10 o'clock this morning, burying several workmen on the works. The building has gone up as high as the third story. Fifty workmen were in the building. A number of them are missing and firemen are at work searching the ruins.

LATER.

Eight men were buried beneath the debris. Firemen were summoned and began clearing away the ruins. Wm. L. Ford, a tinner, was fatally hurt. The remainder of the workmen caught in the falling building were more or less injured, but it is thought none fatally. No cause is given for the collapse of the structure, but it is said to be due to a vein of quick sand upon which it was built. The loss will be about $5,000.

MANTWILL'S MURDERER.

The Perpetrator of the Deed Undiscovered--Eberling and Mrs. Mantwill Released.

CHICAGO, Dec. 30.—Both Bruno Eberling and Mrs. Mantwill were released from the county jail this morning. They were held by the coronor's jury for the murder of Max Mantwill. The habeas corpus proceedings for their release were to have been heard this morning, but States Attorney Longenecker concluded not to oppose them and the man and woman were allowed to depart. They were released on bonds of $1,000 each, being their own sureties, but this was done simply to hold them as witnesses.

KEMMLER'S FATE!

The Law Executing Criminals by Electricity Held Constitutional in New York.

ROCHESTER, N. Y., Dec. 30.—Owing to the fact that Judge Barker will retire from the bench on the 31st instant, the judges of the general term for the fifth department have been holding counsel over the decision for the October term. This morning a decision in the Kemmler case with a long opinion by Judge Dwight was handed down.

It will be remembered that Kemmler is the murderer condemned to death under the new law providing for the execution of criminals by electricity.

Judge Dwight, in his opinion said: 'A writ of habeas corpus was sued out, alleging that Kemmler was sentenced to undergo a "cruel or unusual punishment' contrary to the constitution of the state of New York and of the United States. An offer was made to prove that the punishment as prescribed by the statute was cruel and unusual."

After reviewing the experiments made upon animals with electricity and accidental deaths of men through the same instrumentality, the judge concludes:

"The light of the scientific evidence in this case is sufficient, as we think, to remove every reasonable doubt that the passage of a current of electricity of a certain well determined intensity through the vital parts of the body, under certain conditions of contact and resistence, must result in instant death. If the question were of the advisability in the change of the mode of inflicting death by capital punishment the discussion might be prolonged. As we are confined to the question of constitutionality, we deem further discussion unnecessary. The order dismissing the writ of habeas corpus and remanding the prisoner must be affirmed."

WAYS AND MEANS COMMITTEE.

They Listen to Talks on Tariff From Different Speakers.

WASHINGTON, Dec. 30.—The house committee on ways and means met this morning to hear persons interested in the chemical industry. A large number of representatives of this interest were present. H. Bower, of Philadelphia, told the committee of the magnitude of the chemical industry. He objected to the provision of the senate bill which takes carbonate of potash from the dutiable list and places it on the free list. The present rate of 20 per cent. was a moderate one.

Mr. Armstrong, the president of the Pennsylvania salt company, advocated a specific duty of a quarter of a cent per pound on sulphate of soda, instead of the present rate of 20 per cent. advalorem.

H. B. Rosengarten, of Philadelphia, representing the quinine manufactories, advocated the restoration of the duty on quinine. The number of quinine factories in this country had been reduced from five to three. The restoration of duty would increase its manufacture in this country. The price of quinine had fallen on account of the large production of cichinco bark. In answer to questions from Mr. Carlisle he said that while the restoration of the duty would increase the price of quinine, the increase would be small.

W. D. Cogswell, of Syracuse, who represented the only manufactory of caustic soda, soda ash, and bi-carbonate of soda in this country, said the senate bill was perfectly satisfactory so far as the industries he represented were concerned. To take the duty of $5 per ton off of soda ash, continue work, and not reduce wages would, he believed, result in a loss to the manufacturer. The first year that soda ash was manufactured in this country the manufacturers lost $4 per ton.

A. Penrose Allen, of Philadelphia, manufacturers of phosphorus, advocated a decided increase of duty on this product. He wanted a specific duty of twenty-five cents a pound on phosphorus. The senate bill put the duty at ten cents, while the Mills bill put it on the free list. A duty of twenty-five cents per pound would enable the phosphorus manufacturers to succeed without increasing the price.

W. D. Farris, secretary of the Baker Castor Oil company, of New York, read a statement concerning the manufacture of castor oil in this country. He held that the present duty of 80 cents per gallon was not excessive. The senate bill reduced the duty to 50 cents, and the Mills bill to 40 cents. If the castor oil produced in India were admitted free the American manufacturers would be driven out of business.

Thomas White, of the Brooklyn sulphur works, advocated a reduction of the duty on sublimated flour from $20 to $15 per ton.

F. Reawoole, of New York, manufacture of glycerine, metyliated spirita, varnishes, and alcohol, advocated the abolition of taxes on alcohol.

LITTLE TICKS.

The Wires Flash the Day's News Into Our Office.

CHICAGO, Dec. 30.—The Rev. Walter Forsyth, a resident of Chicago for over forty-two years, and a well known Presbyterian minister, died at his home, No. 5,142 Stowart avenue, Englewood, at 10 o'clock, yesterday morning, in the fifty-sixth year of his age.

BLOOMINGTON, Ill., Dec. 30.—M. G. Patterson, of Decatur, who is the contractor for the brick work of the new buildings at the soldiers' orphans' home, disappeared last Tuesday evening, and has not been seen since then. It is believed that he has been foully dealt with. He drew $1,000 from a bank that day to pay his employes, and about dusk took a street car for Normal.

PORTLAND, Ore., Dec. 30.—A ten-round glove contest, Queensburry rules, between James Corbett and Dave Campbell, a local champion, came off last night at the Mechanics' Pavillion and witnessed by 3,000 people. Honors were about evenly divided from the start. In the eighth, ninth and tenth rounds some hot work was done. The referee declared the match a draw.

VICTORIA, B. C., Dec. 30.—The first sealing schooner to get away for the yearly southern cruise was the schooner Triumph, which sailed Saturday with an experienced crew of seal hunters. The balance of the fleet will sail in a few days for their southern cruise. Far from being discouraged by last years seizures or by the non-settlement of the Behring Sea dispute, sealing men here are active. More vessels will leave this port for the Behring Sea the coming season than ever before.

DENVER, Col., Dec. 30.—It is stated that S. H. H. Clark, general manager of the Missouri Pacific, has been tendered the presidency of the Union Pacific railway, Charles Francis Adams being anxious to resign the office.

LONDON, Dec. 30.—The bank of England's rate of discount has been advanced to 6 per cent.

ROCHESTER, N. Y., Dec. 30.—Otto Betz, a photographer, committed suicide in the Elwager and Barry grounds. Family trouble led to the act.

BOSTON, Dec. 30.—Ex-Fire Commissioner Henry W. Longley died at his residence in this city early yesterday morning after a brief attack of pneumonia. Mr. Longley was afflicted with influenza last week and apparently recovered from the attack, when pneumonia set in, with fatal result.

CHICAGO, Dec. 30.—The report circulated this morning that a terrible wreck had occurred on the Illinois Central is now found to be untrue.

AN ARKANSAS STRANGER

Puts Bullets Into the Bodies of Two Noted Desperadoes.

TEXARKANA, Ark., Dec. 31.—On Christmas day, two noted desperadoes, Red Lendall and Choctawa Pete, rode into the town of Tishwawa.

They had been drinking and immediately took possession of the main street, firing their revolvers recklessly and driving everybody within doors.

While this was going on a well mounted stranger with a veritable arsenal around his waist, arrived. The new comer was supposed to be a comrade of the outlaws by the inhabitants, but it turned out he was a stranger.

When he went to hitch his horse Lindall cut the halter. The stranger protested, whereupon Pete covered him with a revolver and called upon Red to disarm him.

The stranger waited until the latter was close to him, when he drew his revolver and shot Lindall through the heart. He then opened fire on Choctaw Pete and sent two bullets into his head, killing him instantly.

The stranger offered to give himself up, but finding no one willing to arrest him, rode leisurely off. His identity is unknown.

SIEBOLD SUCCEEDS DIEBOLD.

John Siebold of the Sixth Ward, Is Appointed a Policeman.

This afternoon the police commissioners met and appointed John Siebold, of the Sixth ward, to succeed Henry Diebold on the police force.

Mr. Siebold is well adapted to wear the star and is a steady and worthy young man.

He will be assigned to duty shortly.

He was formerly a boiler maker in the Wabash shops.

ELEVEN CREMATED.

The Burning of a Dwelling at Hurontown, Mich., Results in the Death of Eleven Persons.

ISHPEHING, Dec. 30.—At Hurontown, a town near Houghton, Mich., where two women and a baby were burned to death a few days ago, eleven persons perished by fire yesterday morning. Theodore Grass, aged fifty-seven, and his wife, Mary, aged forty-seven, returned from an old people's dance early in the morning. Their son, Theodore, jr., returned from his work in the stamp-mill a short time afterward. All went to bed.

A quarter of an hour later Theodore, jr., heard screams in his sister's room. He and his brother, Nicholas, aged seventeen, attempted to reach the next room, but the flames drove them back. With bare feet and hands they broke the glass and sash of the only window in the room, and jumped to the ground, attired only in their night shirts. A terrible blizzard was raging, and they could not break the windows.

They then rushed to a neighbor's for help. The fire was extinguished an hour later and to-day eleven bodies were recovered. They were the remains of Theodore and Mary Grass and their children, Kate, John, Antoine, Mary, Lena, Lizzie, Joseph and Michael, and Lena Erb, of Lake Lindon, Mich., who was visiting the girls of the Grass family. The bodies are in a temporary morgue at the Houghton fire engine house.

CHICAGO'S ALL RIGHT.

La Grippe Has Not Made Its Appearance In That City.

CHICAGO, Dec. 30.—The Russian influenza has not yet made its appearance in Chicago. This is the opinion of the medical men of the city, many of whom were interviewed by the *Herald* yesterday. The doctors were unanimous in saying that the reported cases of the disease that have stirred up the town during the last week were nothing more than plain, ordinary, every-day colds.

NEW YORK, Dec. 30.—The prevailing epidemic of influenza, has taken a firm hold upon the police force of this city. The returns for to-day show that 295 members of the force have reported sick and at least two-thirds of that number are laid up with "LaGrippe."

SARA FAINTED.

A Fire in a Paris Theatre Frightens Mme. Bernhardt.

PARIS, Dec. 30.—The pyre to be used in the play of Joan d'Arc by Sara Bernhardt, became ignited last night by the surrounding fire during a dress rehearsal. Mme. Bernhardt, who was on the pyre, received no injury. She fainted from fright, however. Two scene shifters were seriously burned in their efforts to extinguish the flames.

LONDON, Dec. 30.—The article by Mr. Gladstone favoring a revival of confession in England, was written forty-five years ago. Mr. Gladstone has requested the editor who just published it as representing the authors present views, to explain his unauthorized action.

COLONEL DUDLEY.

He Need Not Expect Any Favors From New York Courts.

NEW YORK, Dec. 30—Judge Lawrence of the supreme court, handed down a short opinion in the chambers to-day in which he says, in effect, that Colonel W. W. Dudley, who is sueing half a dozen New York newspapers for alleged libel, in the publication of the "blocks of five" letter, can not expect favors from the court when he persistently refuses to obey its orders.

The motion by the plaintiff to vacate an order for substituted service on him of an order for his examination before trial to enable the defendant to prepare an answer, is denied.

More Cronin Suspects.

CHICAGO, Dec. 30.—States Attorney Longenecker said that he had secured considerable evidence against four or five other men who were suspected of complicity in the Cronin murder conspiracy, and that he might before long take steps to have them indicted and brought to trial. He declined to mention their names at this stage of the matter.

A Convict Re-Captured.

JEFFERSONVILLE, Dec. 30.—Clay Davidson, the notorious convict who instituted a hide-out, was found Saturday. He was under a pile of molding flasks nearly dead for want of air.

Mr. Samuel Foster left for Indianapolis to-day.

The population of Japan is just under 40,000,000.

HARD CIDER.

It Turns the Heads of Women--Boys Arrested For Larceny.

There was a lively police court this morning.

Emma Johnson and Alice ——— looked upon the cider when it was hard, then unwisely left their domestic haunts to find trouble. They were gratified. At the corner of Calhoun and Main streets a third party of female persuasion met the pair, as a result of which meeting a spirited argument arose, followed by a Simon-pure female hair-pulling and nail-scratching engagement. At this juncture Lieut. Leonard Fuchshober appeared, whereupon the third party escaped. The above two were locked up and this morning pleaded guilty and paid a fine of $1 and costs for drunkenness.

Officer O'Ryan placed Dan Schantz and Frank Grubbs under arrest on suspicion of having been accessory to the theft of some whisky, cigars, etc., from the grocery and saloon of John Sheffer & Co., on Grand street. Both boys were bound over in the sum of $500 to await the arrest of two other youthful pals for whom affidavits are made out.

Thomas Carey and John Harrison arrested by Officer Patton and John Shea arrested by Officer Limecooly were sent to jail for intoxication.

DANGER OF FIRES.

The Fire Engine Prevented From Reaching a Fire by Muddy Streets.

The fire department responded to two calls yesterday or rather one portion of the department did.

Shortly before noon a chimney fire at the residence of Caroline W. Phillips, corner of Main and Ewing streets, called the department.

About 5 o'clock in the evening an alarm was sent in from box 5 2, which proved to be another chimney fire at the residence of Henry Werner, 24 Locust street. The streets were so absolutely muddy that the engine team could not proceed more than a few blocks. That part of the apparatus was returned to the engine house.

The fire engine weighs, with three men, something like 4,000 pounds, or nearly three tons, which easily explains why such difficulty was met with.

While the city has such muddy streets to hamper the department it is a dangerous time for a visitation of the fire fiend.

FAVORED BY A KING.

King Alfred, of Saxony, Responds to the Request of a Fort Wayne Admirer.

Mr. Truenbach, is one of Fort Wayne's German citizens whose patriotism for the star and stripes is as enthusiastic and fervent as many who have never seen other than American soil.

He has in his home a portrait of Grover Cleveland and as a fitting companion-piece he tried to secure the likeness of King Alfred, of Saxony. But photos of King Alfred are not standard publications, and after he had almost despaired of securing his coveted prize, he indicted his request to the king himself at Dresden, to the effect that the recipient of the letter would give the same attention.

This happened two months ago. The matter had almost been forgotten when the picture of King Alfred arrived yesterday. It is a superb photo, two and a half feet high, executed by the court photographer, and encircled with a beautiful gold frame of oval form with the royal crest on the bottom. The picture was accompanied by a letter from Consul Pollier. Mr. Truebenbach is very proud of his treasure and will probably present the picture to the German military society.

MONDAY, DEC. 30, 1889.

SECURE your calendar for 1890.

FIRES have burned $400,000 worth of churches in the last year.

YESTERDAY dawned with spring-day weather, but ended rather wintrish.

THE Rev. Edward Abbott, who has been elected missionary bishop to Japan, is said to be the original "Rollo," of the "Rollo books," written by his father, Jacob Abbott.

THE ice men are not wearing a very cheerful smile over the prospects for a supply of the congealed liquid for next summer's demand. The supply now is nearly exhausted and unless there is a good spell of very cold weather from now on, ice will be at a premium next summer.

SOUTHERN papers are protesting, and justly, against the fashion northern newspapers have of naming every negro brawl "a race war." The northern states furnish six to one more Christmas tragedies sprung from drink, than the states of the south, but they are not distinctively classified and named.

ROBERT BROWNING, it now appears pretty well established, was of Hebrew origin. His mother's maiden name was Wiedemann. His father was a trusted clerk, of the Rothschild at a time when the famous firm was supposed to employ none but persons of their own faith. But the family passed for Dissenters. The poet always took the keenest interest in Jewish history and legend.

THE SENTINEL is not opposed to the paving of the streets of the city. It believes that every street within the limits of the corporation should be placed in the best possible condition. It is in favor of any improvement that will add to the convenience of our people or advance the welfare of the corporation, but in making any improvement where the expenditure of a large amount of money is concerned, it cautions careful consideration before increased taxation is incurred.

THE Angola *Herald* says: "It is a mistake on the part of certain of the democratic press to attempt to make it appear that there is an effort on the part of P. S. O'Rourke to defeat Hon. C. A. O. McClellan's renomination. Both these gentlemen are sound democrats and have too much good sense to enact another Lowry scene. It is safe to say that when the proper time comes there will be harmony between these gentlemen and personal desires will be sacrified in the interest of democracy."

CAPTAIN O'SHEA, ex-member of the English house of commons, has filed in London a petition for divorce from his wife on the ground of adultery, naming Charles Stewart Parnell as co-respondent. It is the generally accepted theory that the action brought by Captain O'Shea, ostensibly against his wife, but really against Mr. Parnell, is purely a political move, and the suspicion is growing that the captain was induced to spring the suit just at this time in order to counteract the effect of the report of the special commission respecting the forged letters. For O'Shea himself nobody has had a particle of respect.

THINK ABOUT IT.

The old year has but one more day to run. To-morrow's sun will arise and set and when it comes above the eastern horizon again it will dawn upon a new year. It will be a day fraught with interest and importance to the business world. Men will review their business transactions of the year, strike a balance on the debit or credit side, and make new plans and a new start for the year which they will then enter.

It is also a time when many men put into effect new resolves as to their manner of living. Habits, which have been ruinous, are dropped and they begin a new life. They may have been the slaves of rum before. They resolve with the coming of the new year to shake the habit and be a victim to it no more. Such a resolve, if kept, will prove a blessing to any man. Listen, while we tell you what Tom Marshall said about sobriety, but first let us tell you who Tom Marshall was.

Tom Marshall was a congressman. He was a brilliant man—large hearted, noble and generous—but like so many of the gifted men of our nation, he fell a victim to the wine cup. He was a hard drinker and while in congress it was wrecking his life, but one winter a congressional temperance society was formed and Tom Marshall joined it. Some time afterwards he made a speech at one of its meeting, and used this sentence, which is said to be the longest on record:

SIR: I would not exchange the physical sensations, the mere sense of animal being, which belong to a man who totally refrains from all that can intoxicate his brain or derange his nervous structure, the elasticity with which he bounds from his couch in the morning, the sweet repose it yields him at night, the feeling with which he drinks in, through his clear eyes, the beauty and the grandeur of surrounding nature; I say, sir, I would not exchange my conscious being as a strictly temperate man, the sense of renovated youth, the glad play with which my pulses now beat healthful music, the bounding vivacity with which the life blood courses its exulting way through every fibre of my frame, the communion high which my healthful ear and eye now hold with all the gorgeous universe of God, the splendors of the morning, the softness of the evening sky, the bloom, the beauty, the verdure of the earth, the music of the air, and of the waters; with all the grand associations of external nature re opened to the fine avenue of sense; no, sir, though poverty dog me, though scorn pointed its slow finger at me as I passed, though want and destitution and every element of earthly misery, save only crime, met my wakening eye from day to day; not for the brightest and the noblest wreath that ever encircled a statesman's brow; not if some angel commissioned by heaven or some demon sent fresh from hell to test the resisting strength of virtuous resolution, should tempt me back with all the wealth and all the honors which a world can bestow; not for all that time and earth can give would I cast from me the precious pledge of a liberated mind, this talisman against temptation, and plunge again into the dangers and horrors which once beset my path, so help me heaven, as I would spurn beneath my very feet all the gifts the universe could offer and live and die as I am, poor but sober.

REV. W. M. VANSLYKE

Delivers an Impressive Talk at the Y. M. C. A.

Rev. W. M. VanSlyke, the pastor of the Berry street M. E. church, conducted the services at the City department of the Young Men's Christian Association yesterday afternoon and delivered a discourse that was full of interest and power.

He took no text nor did he announce his subject but it was soon seen, from the nature of his remarks, that his theme was Bible reading. The Bible, he said, was apt to be, by many persons, the least read of all books and yet it was one of the supremest interest and importance to the world and should be properly read and carefully studied.

It revealed the will of God and told of the rich legacies that he had given to man. It was a prescription, more valuable and more precious than any ever written by a physician's hand, for it cured the greatest of diseases—sin. It was a map. On the tempestuous sea of life, where the frail human bark was in danger of being wrecked, it revealed the safe path. It guided the mariner over the waves and past danger points and brought him at last to the port of Heaven.

He urged upon his hearers the reading of the holy book in a studious and understanding way. Christians did not study it enough. It was the best of books and we should learn all of its precious promises to us. Accompany the reading with prayer and ask God for blessings with the expectation of getting them, but do not stop there. Go and work for the blessings asked and God will shower them down on you and help you to bring others within the fold of Christ.

The address was an earnest, eloquent one and had the effect of making a very interesting after meeting, in which a number of other persons participated.

THE STATE'S FINANCES.

Exhibit of Money Received and Expended Called For by the Superintendent of the Census.

In compliance with a request from Hon. Robert P. Porter, superintendent of the eleventh census, the state auditor has prepared a statement or all financial matters connected with the state government from October 31, 1880, to October 31, 1889, both years included. The blank was forwarded from the census bureau at Washington and is designed to cover the receipts and disbursements for the period named. Similar statements are, no doubt, being obtained from all the states of the Union, to be incorporated in the report of the bureau. The following summary contains the more important totals of the several items of receipts and expenditures, as shown in the auditor's statement:

RECEIPTS	
General taxes, real, personal and poll	$28,548,044
Corporations and companies	720,121
Benevolent institutions	176 868
Penal and reformatory institutions	1,089,573
Sales of property	81,598
The income from funds	4,940,256
Miscellaneous	4,204,421
Net receipts	$40,767,482
EXPENDITURES.	
Legislative	$ 626,081
Executive	475,647
Judicial	2,658,651
Military	33,922
Educational	598,505
Common schools	19,613,035
Benevolent institutions	1,016 919
Penal and reformatory institutions	2,552,536
Construction of buildings	4,395,540
Interest on state debt	3,113 727
Miscellaneous	2,926,356
Net expenditures	$40,377,125

The several loans made by the state since 1889, aggregating $3,500,000, are included in the miscellaneous receipts, but the loan of nearly $4,000,000 under the refunding of the common school bonds is not reckoned at all, as it was simply changing the form of the debt which the state owed to itself. A distinction is made between money paid out in support of the colleges of the state and that going to the support of the common schools, for the reason that the funds are dissimilar in every particular. Adding the two items, "educational" and "common schools," found in the disbursement table, it will be seen that the state has paid out $20,151,540 for education in the last ten years, an average of something in excess of $2,000,000 annually.

EXPERTS WITH THE GUN.

The Beck-Erb Contest for the World's Championship Cup.

The match between George C. Beck, of Indianapolis, and Fred Erb, of Lafayette, champion of the world, will occur at the latter place Wednesday, February 19. It is for the world's championship cup, which Erb won from Charles Budd last month, and $50 a side. The match will be at fifty live pigeons, with thirty yards rise and eighty yards boundary. Five traps will be used, and Hurlingham rules govern. The event is exciting much comment, and a number of interested friends of both gentlemen will go to Lafayette from this city, to witness the important contest.

Eight Men Lynched.

CHARLESTON, S. C., Dec. 30.—A mob of several hundred masked men, broke open the Barnwell county jail at 2 o'clock Saturday morning and overpowered the jailer. They seized Ripley Johnson and Mitchel Adams, two murderers of James Hefferman, and six men held for the recent murder of Robert Martin, at Martin's, Barnwell county.

They were marched to the outskirts of the town, and in a few minutes the men were bound to the body of eight trees. The masked men then formed a line a short distance from them and poured volley after volley into the bodies of the negroes. The firing was the first intimation the people of the town had of the trouble. It seemed then as if the negroes would rise up and avenge the lynching.

Saturday the state teachers' association closed its sessions. The paper upon the school system of Germany by H. M. LaFollette, superintendent of public instruction, delivered at that time, was considered a valuable contribution. The schools in Germany, he said, were divided into four classes, the volk schule, the raal, the gymnasia and the universities. An excellent and systematic method of instruction in music, industrial arts, gymnastics and religion was in vogue, and the length of a teacher's service, which is twenty years, is five times as long as the usual service of American teachers. Professors Dryer, Lane and others from this city were present.

J. E. Clarke, an aged resident of Kokomo, while suffering from a partial paralytic stroke, went to George Weykle's bath rooms, Friday night, to take a bath. He was assisted by Weykle, as he was almost helpless. Weykle turned on the gas full force and went to do something else while the water was getting warm. He forgot all about Clark, and, after some time, locked the bath room door and left the house. The gas was turned on full and Clark was so helpless that he could not turn it off or escape. Saturday morning the body of the old man was found thoroughly cooked and roasted in the bath. Weykle, it is claimed, is weak-minded.

Mr. Curtis declares in the last number of *Harper's Weekly* that Grover Cleveland is the most popular living American.

Love rules the court, the camp, the grove,
But this we find where'er we rove,
That SOZODONT alone supplies
The dazzling teeth and ruby dyes,
That lend a maiden half the charms
That win's her to her lover's arms.

Lord Macaulay's executors have in their hands some unpublished ballads of his that he wished should not be published.

Mr. Moore, the postmaster at Bradshaw, Va., after reading an advertisement of Chamberlain's Colic, Cholera and Diarrhœa Remedy, concluded to try a small bottle of it. He says: "I used it in two cases for colic and three for diarrhœa with perfect satisfaction. One dose gave relief in every case but one, and that was a bad case of colic and required the second dose. I have handled a great deal of patent medicine as agent and for my own use, but never tried any that gave as good results as 'Chamberlain's Colic, Cholera and Diarrhœa Remedy.' For sale at 25 and 50 cents per bottle by George H. Loesch.

The rainfall during autumn, 1889, was in excess. The precipitation during September, 1889, was 0.48 inches in excess; that of October was 0.98 inches deficient and November 1.23 inches in excess, therefore the excess in precipitation during the autumn was 1.09 inches. The normal temperature for autumn in Indiana, based upon eighteen years' observations, is 53.6. Nine autumns had a higher temperature than that, and nine lower. The mean temperature for the autumn of 1889 was 50.7, the autumns only two years, 1873 and 1880, having been cooler.

HERE IT IS!

The famous neverslip horse shoe with patent removable, steel centered, self sharping calks, has gained the day and can be found in our city.

Some of the main advantages which have commended it to popular favor, may be summarized, as follows:

1. It never slips in any direction.
2. The horse soon learns this fact, and consequently, whether pulling or trotting, will always do his best.
3. It saves the horse from sprains and bruises which constantly result from insecure footing.
4. It avoids the injury to the horse's feet caused by a too frequent resetting of the shoes.
5. It greatly lessens the danger of injury from calking.
6. It saves the time, both of the horse and owner, as the insertion of new and sharp Calks is the work of only a few minutes.
7. Its use facilitates all kinds of business. Livery keepers, and all whose horses are in constant requisition, are enabled by the use of this shoe to meet their engagements promptly, however slippery the traveling may be.

Owing to the great demand for this shoe, Geary & Perrey, the horse shoers, successors to Ersig & Geary, secured the agency for Fort Wayne, and are prepared to supply all sizes of calks and wrenches, &c., to persons desirous of useing them.

The reputation of Geary & Perrey, as horse shoers, is second to none in the city, and their endorsement of the shoe, guarantees satisfaction. Call on them for further information at

MONDAY'S DULLNESS.

Shows Itself in the News as Found Around the Busy Centers and the Budget is Uninteresting.

It was a dull day around the depots.

Holiday travel on the railroads is very light.

Many of the shop men are off on holiday vacations.

Most of the manufactories will work on New Years day.

Conductor G. P. Davis is spending the holidays at Chicago.

Ed Luke, of the Bass works, has returned from a visit to Ohio.

George Read is acting as conductor on the Pittsburg during the holidays.

Harry Hayes, machinist at the Bass works, has returned from Richmond, Ind.

Bert Baughman, of the Nickel Plate, has been off duty on accout of rheumatism.

Frank Lonsberry, of White's wheel works, has returned to work after a few days' illness.

Robt. Holland, of the Pennsylvania company, has been at Crestline, Ohio, the last few days.

C. W. Cook, agent of the Nickel Plate at New Haven, is spending the winter in California.

Fred Olds has returned from Ohio, and resumed his position in the Pittsburg machine shops.

H. C. Barner, of the Jenney, has been off duty for a few days from injuries received to his fingers.

C. M. Jones, clerk at the Pittsburg freight office, has gone to Bucyrus, Ohio, for a few days.

Thomas Dorwin, Canadian passenger agent of the Missouri, Kansas and Texas railroad, is in the city.

P. S. Gilmore, of Chicago, general northern agent of the E. T. V. & G. railroad, is in the city.

Seventy-three repaired cars and twenty-one new cars were turned out of the Pittsburg car shops last week.

John Malt, of White's wheel works, is suffering from injuries received to a finger, by a splinter from a spoke

On account of the recent rains and mild weather for winter the road beds of some of the roads are considerably increasing their forces of section men.

Conductor Thorpe, of the Pittsburg road, is entertaining his brother, Fred Thorpe, who is connected with the Postal Telegraph company, at Pittsburg, Pa.

According to figures recently furnished by a celebrated statistician, the republic of the United States is the third richest country per capita on the globe, there being $800 for each inhabitant. A good many of the readers of this column are wondering, with our reporter, where their share is.

The New York, Chicago and St. Louis (Nickel Plate), which is practically a freight line, will show, this year, an increase in net earnings of fully $25,000, most of which has been made in the last four months, as the statement on September 30 showed an increase this year of only $7, 180.

"Is there anything new?" asked our reporter of C. J. Matsch, chief clerk in Superintendent Pickard's office, at the Bass works, this morning. "No," was the reply, "but there will be Wednesday." "What?" quickly answered the scribe, eager to get an item two days in advance. "The new year," coolly answered Matsch, and he went on writing at his books as if there was no joke intended.

Car-coupling can be deprived of its present frightful risk by an expenditure of $4 a car, say $4,000,000 on cars which this year earn not less $700,000,000. This will save annually at least 500 lives, 4,000 severe injuries and 15,000 slight wounds, or the casualities of a great historic battle with 50,000 men engaged. The railroads of the United States ought to be willing to do this without an act of congress.

The promotion of George Stevens to the position of general superintendent of the Chesapeake & Ohio road was gratifying news to his numerous friends in Indiana and Illinois, where he is so well known. Should he take some good men off of the Wabash road for the less important offices under his supervision it will not be a surprise. The office was a newly created one on that road, and the selection of Mr. Stevens to fill it by President Ingalls is very complimentary to the former.

HOLIDAY EXCURSION.

Low Rate Tickets via the Pennsylvania Lines.

Holiday excursion tickets, at low round trip rates, will be sold from all ticket offices of the Pennsylvania lines west of Pittsburgh on December 24th, 25th, 31st, 1889, and January 1st, 1890, good going on date of sale and returning until January 3d, 1890. 9eod.td.

BURNED BY GAS.

Christian Haffner, the Baker, Lights Natural Gas His Own Way.

Yesterday, Mr. Christian Haffner, the baker, went down into the basement of his new bakery, on East Lewis street, to light the natural gas under the ovens.

He turned on the gas first, unthinkingly, applied the match and ——! There was an explosion, although not a severe one. However, Mr. Haffner was burned about the face and hands, causing ugly blisters of a painful nature to form on several spots.

"Flame first; gas afterward."

THE women of Kansas do not mean to be left in the background. They put prohibition in the Constitution, they have full municipal and school ballot, coeducation in its State University, and the number of women preachers, doctors, and lawyers is larger than in any other State. The Assistant Attorney General is a woman, and women are farmers, bankers, County School Superintendents, editors, printers, and merchants. Women serve on the School Boards in every county, and there are women Treasurers of School Boards, Superintendents of Schools, Registers of Deeds, and at Cottonwood Falls the Police Justice is a woman.

THE King of Siam is a magnificent object in state attire. He glistens from head to foot with jewels worth more than $1,000,000. It is commonly reported in Bangkok that he has three hundred wives and eighty-seven children, though the exact figures have never been given to his subjects. He was a father at the age of twelve, and is now only thirty-six years old. If he lives a few years more he will be able to assume the title of "father of his country." The King is a good fellow, fond of a reasonable number of his children and very kind to his three hundred wives. He is very progressive and has done a great deal of good to Siam.

THE Century Publishing Company consumes nearly 200 tons of paper a month, and their paper bill amounts to about $300,000. Harper Brothers, for their illustrated papers and magazines, use annually about 25,000 reams, besides vast quantities of book paper for other publications. The Arkells use 30,000 reams annually for *Judge* and *Frank Leslie*. *Puck* requires about 12,000 reams per year.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

"It's always the survival of the quickest," said the cow-boy as he put up his smoking revolver, having shot his antagonist dead.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER Co., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

Sarah Bernhardt calls herself "the most etheral of women."

An old lady at Burke, Tex., who had been troubled with diarrhœa for over fifteen years, says that Chamberlain's Colic, Cholera and Diarrhœa Remedy did her more good than all the other medicines she had ever used. Mr. S. J. Treadwell, the leading merchant of the town, vouches for the above statement. For sale by George H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

MATRIMONIAL AFFINITIES.

Mr. Jason—Why ain't supper ready, I want to know?

Mrs. Jason—I was down town and got caught in the rain without an umbrella. I had to wait in a store until the storm was over.

Mr. Jason—So you did have sense enough to go in out of the rain, eh? Well, you are not an entire fool.

Mrs. Jason—No, only the better half of one.—*Terre Haute Express.*

Beauty and Utility.

No more appropriate or useful Christmas present can be given by a parent to a son or daughter than a Caligraph Type Writer. The time is not far distant when a type writer will be found in every intelligent home. The educational value of a type writer is unquestioned. It assists in learning to spell correctly, and results in a close observation of the construction of sentences, and helps to form the habit of composition. W. E. McDermut is the Fort Wayne agent for the Caligraph, which embraces the latest and best improvements in writing machines. Call and get samples, and see the machine in actual operation. 14 jan1.

California Excursions.

The Wabash railroad is now prepared to sell for the coming season round trip tourist tickets to all principal Pacific coast points, giving a wide choice of routes both going and returning, and an extreme return limit of six months. Stop-overs granted at pleasure, west of the Missouri river. Parties contemplating a journey to sunny California—with a view of spending the winter there—will do well to call at the Wabash ticket office and learn the many advantages offered by the great through car route.

The Forum.

A MONTHLY REVIEW OF LIVING SUBJECTS

By the Foremost Writers in the World.

JOHN G. CARLISLE.

THE FORUM has won the highest place reached by any periodical; for it publishes articles by more authoritative writers and by more workers along instructive lines of activity than any other publication. It contains eleven studies of great subjects every month. It is impartial, giving hearings alike to each side. It is financially independent, and it belongs to no sect or party or "interest." It is never sensational, but it aims always to be instructive.

I consider THE FORUM as furnishing the most intelligent and sympathetic audience that a thoughtful writer can find to address in any land.—*Prof. ALEXANDER WINCHELL, of the University of Michigan.*

THE FORUM continues to hold its place as the foremost of our magazines, for the variety, the value, and the weight of its contributions.—*THE NEW YORK TIMES.*

Announcements of forthcoming articles can seldom be made long in advance, for THE FORUM'S discussions are always of problems of present concern. Every such problem that the year 1890 will bring forward will be discussed, whether in politics, or religion, or social science, or practical affairs. The January number will contain a reply by ex-Speaker J. G. CARLISLE to Senator Cullom's recent article on "How the Tariff Affects the Farmer."

FRANK WELLING RESIGNS.

One of Coombs & Co.'s Efficient Men Drops Out to Engage in Business.

Mr. Frank Welling, who for many years past held a prominent position with Coombs & Co., resigned last Friday, the same taking effect the following day.

The announcement caused much surprise, as Mr. Welling held a foremost position of responsibility and trust in the establishment.

Mr. Henry J. Beuret, of the Coombs offices, will in all probability succeed Mr. Welling, as he is competent and worthy. If the place does not fall to him a gentleman from Chicago will be the man.

Mr. Welling has been to Coombs & Co. an energetic and faithful representative and much of the prestige was through his influence. He retires to engage in business for himself, but of what nature he was not prepared to inform a SENTINEL reporter to-day as a matter of news. However, it is said that he will engage in a business similar to that with which he has been connected.

STRANGER THAN FICTION!

A Wife and Son, Deserted for Twenty-Four Years, Appear at the Funeral of Nathaniel E. Robinson.

MANCHESTER, N. H., Dec. 30.—The funeral yesterday of Nathaniel E. Robinson, the overseer who committed suicide Christmas day, brought to light a remarkable story of desertion.

Robinson, during his twenty-four years residence here, had claimed that he had not a living relative in the world.

He was to have been married in the spring to Miss Annie Hayes. At the obsequies yesterday a woman and a boy presented themselves as the wife and son of the dead man, and produced evidence to that effect.

From their story it appears that some twenty-four years ago Robinson was an overseer in a Providence mill, married and had two children. He told his wife he was going where he could make more money and that he would send for his family when he became settled. He left home and from that day until the publication of the story of his suicide, the wife had no word from her husband. An article published last week in a Providence newspaper concerning the death of the overseer, led to the attendance of his wife and child at the funeral.

WILL NOT STRIKE.

Pittsburg's Street Cars Will Not Be Tied Up.

PITTSBURG, Pa., Dec. 30.—It is the general impression to-day that the threatened strike of the grip men and conductors on the Fifth avenue line of the Pittsburg Traction company will not materialize. A series of rumors that can not be traced to authentic sources, are in circulation, one of which is that a meeting of the employes will be held to-night, and a general tie up ordered for to-morrow morning unless the demands of the men are acceeded to and the discharged men are reinstated.

Several of the employes were interviewed to-day and agreed in the statement that they do not contemplate engaging in a strike and admitted that the officials of the company were justified in removing the men relieved from duty yesterday and this morning, about sixteen in all. To-day the cable cars are running regularly, while nothing at present indicates that a general strike will be declared.

AN UNKNOWN ASSASSIN

Enters a Home and Murders a Man and His Wife.

BOSCOBEL, Wis., Dec. 30.—A double murder was committed at Mount Sterling, Crawford county, about twenty miles from this city, between 3 and 4 o'clock yesterday morning. Jerry O'Neil and his wife were fatally shot while in bed, the former in the breast and the latter in the stomach, by an unknown assailant.

The victims were well-to-do and inoffensive people. They were about fifty years of age. The shots awoke two daughters who slept near the old folks. Their cries summoned the rest of the family, who were in the second story, but the murderer had escaped. What the object was is not known, as nothing was stolen. There were eight members of the family in the house at the time, most of them full grown people.

MR. PARNELL

Is Interviewed Regarding the O'Shea Divorce Suit.

DUBLIN, Dec. 30.—Mr. Parnell writes to the *Freeman's Journal*, stating that he has not as yet received notice of the filing of a divorce suit by Captain O'Shea against his wife and in which he is named a co-respondent.

Mr. Parnell states that he had constantly resided at Eltham since 1880, and was frequently there in the absence of Captain O'Shea and that the latter was cognizant of the fact. He further declares that the action of Captain O'Shea in bringing the suit was instigated by Mr. Houston, secretary of the Irish Royal and Patriotic Union, for the purpose of creating a feeling against him and diminishing the amount of damages that may be awarded him in his libel suit against the *Times*.

ASPHYXIATED.

A Lady and Two Daughters Meet Death in a Hotel.

SAN FRANCISCO, Dec. 30.—Mrs. Erwin and her two daughters, Mary and Bessie, from Benton county, Missouri, were found asphyxiated in Oakland yesterday morning.

The three ladies were assigned to the same room on Saturday night and not being accustomed to the use of gas, the hotel clerk showed them how to turn it on and off. Yesterday morning the three were found dead in bed and an examination showed that the gas had been turned but half way off.

Mrs. Erwin's husband has been in this state about six months and had just rented a farm in Ventura county, to which place his family were en route to join him.

CRIME'S CALENDAR.

Tragedies Enacted in Different Parts of the Country.

EVANSVILLE, Ind., Dec. 30.—Shortly after 1 o'clock yesterday morning a negro named Bill Taylor went to a slaughter house just north of the city, where he commenced to quarrel with a negro employe of the establishment, Charles Williams, about a woman. The quarrel ended in Taylor sending a bullet in his rival's abdomen, from the effects of which Williams will probably die. Taylor was arrested.

NEW YORK, Dec. 30.—Henry C. Moller, a wealthy Hoboken, committed suicide last night, by blowing out his brains with a revolver. He was thirty years old, married, and had two children. He lived on the income of the fortune left by his father, Christian Moller, the sugar refiner, who committed suicide seven years ago. It is supposed Moller was temporarily insane.

SHAWNEETOWN, Ill., Dec. 30.—On board the E. G. Ragon, yesterday, a colored hand, who came from Mount Vernon, was assaulted with a club and his skull fractured. It is charged that the deed was done by the second cook. The injured man was thrown off and left on the wharf boat. The sheriff was called but arrived too late to arrest the assailant, as the boat had gone. The injured man will probably die.

GRAFTON, W. Va., Dec. 30.—Joseph Gridlith, a prominent Taylor county farmer, was fired upon early Friday morning and seriously wounded, three balls taking effect. Charles Mason is under arrest on suspicion.

NEW YORK, N. J., Dec. 30.—Samuel E. Scudder, alias Samuel E. Johnson, a colored hostler, Saturday night attempted to murder his wife's father and brother, but the balls sped wide of the mark. Scudder was subsequently found by a policeman, and drawing a pistol shot himself. He will die.

BURIED THE WORKMEN.

The Walls of a New Building Fall at St. Louis, Mo.

ST. LOUIS, Mo., Dec. 30.—The Academy of Music in course of erection, on Thirteenth street and Washington avenue, fell in a heap at 10 o'clock this morning, burying several workmen on the works. The building has gone up as high as the third story. Fifty workmen were in the building. A number of them are missing and firemen are at work searching the ruins.

LATER.

Eight men were buried beneath the debris. Firemen were summoned and began clearing away the ruins. Wm. L. Ford, a tinner, was fatally hurt. The remainder of the workmen caught in the falling building were more or less injured, but it is thought none fatally. No cause is given for the collapse of the structure, but it is said to be due to a rein of quick sand upon which it was built. The loss will be about $5,000.

MANTWILL'S MURDERER.

The Perpetrator of the Deed Undiscovered—Eberling and Mrs. Mantwill Released.

CHICAGO, Dec. 30.—Both Bruno Eberling and Mrs. Mantwill were released from the county jail this morning. They were held by the coroner's jury for the murder of Max Mantwill. The habeas corpus proceedings for their release were to have been heard this morning, but States Attorney Longenecker concluded not to oppose them and the man and woman were allowed to depart. They were released on bonds of $1,000 each, being their own sureties, but this was done simply to hold them as witnesses.

KEMMLER'S FATE!

The Law Executing Criminals by Electricity Held Constitutional in New York.

ROCHESTER, N. Y., Dec. 30.—Owing to the fact that Judge Barker will retire from the bench on the 31st instant, the judges of the general term for the fifth department have been holding counsel over the decision for the October term. This morning a decision in the Kemmler case with a long opinion by Judge Dwight was handed down.

It will be remembered that Kemmler is the murderer condemned to death under the new law providing for the execution of criminals by electricity.

Judge Dwight, in his opinion said: 'A writ of habeas corpus was sued out, alleging that Kemmler was sentenced to undergo a "cruel or unusual punishment' contrary to the constitution of the state of New York and of the United States. An offer was made to prove that the punishment as prescribed by the statute was cruel and unusual."

After reviewing the experiments made upon animals with electricity and accidental deaths of men through the same instrumentality, the judge concludes:

"The light of the scientific evidence in this case is sufficient, as we think, to remove every reasonable doubt that the passage of a current of electricity of a certain well determined intensity through the vital parts of the body, under certain conditions of contact and resistence, must result in instant death. If the question were of the advisability in the change of the mode of inflicting death by capital punishment the discussion might be prolonged. As we are confined to the question of constitutionality, we deem further discussion unnecessary. The order dismissing the writ of habeas corpus and remanding the prisoner must be affirmed."

WAYS AND MEANS COMMITTEE.

They Listen to Talks on Tariff From Different Speakers.

WASHINGTON, Dec. 30.—The house committee on ways and means met this morning to hear persons interested in the chemical industry. A large number of representatives of this interest were present. H. Bower, of Philadelphia, told the committee of the magnitude of the chemical industry. He objected to the provision of the senate bill which takes carbonate of potash from the dutiable list and places it on the free list. The present rate of 20 per cent. was a moderate one.

Mr. Armstrong, the president of the Pennsylvania salt company, advocated a specific duty of a quarter of a cent per pound on sulphate of soda, instead of the present rate of 20 per cent. advalorem.

H. B. Rosengarten, of Philadelphia, representing the quinine manufactories, advocated the restoration of the duty on quinine. The number of quinine factories in this country had been reduced from five to three. The restoration of duty would increase its manufacture in this country. The price of quinine had fallen on account of the large production of cichinco bark. In answer to questions from Mr. Carlisle he said that while the restoration of the duty would increase the price of quinine, the increase would be small.

W. D. Cogswell, of Syracuse, who represented the only manufactory of caustic soda, soda ash, and bi-carbonate of soda in this country, said the senate bill was perfectly satisfactory so far as the industries he represented were concerned. To take the duty of $5 per ton off of soda ash, continue work, and not reduce wages would, he believed, result in a loss to the manufacturer. The first year that soda ash was manufactured in this country the manufacturers lost $4 per ton.

A. Penrose Allen, of Philadelphia, manufacturers of phosphorus, advocated a decided increase of duty on this product. He wanted a specific duty of twenty-five cents a pound on phosphorus. The senate bill put the duty at ten cents, while the Mills bill put it on the free list. A duty of twenty-five cents per pound would enable the phosphorus manufacturers to succeed without increasing the price.

W. D. Farris, secretary of the Baker Castor Oil company, of New York, read a statement concerning the manufacture of castor oil in this country. He held that the present duty of 30 cents per gallon was not excessive. The senate bill reduced the duty to 20 cents, and the Mills bill to 10 cents. If the castor oil produced in India were admitted free the American manufacturers would be driven out of business.

Thomas White, of the Brooklyn sulphur works, advocated a reduction of the duty on sublimated flour from $20 to $15 per ton.

F. Beawoole, of New York, manufacturer of glycerine, metylated spirits, varnishes, and alcohol, advocated the abolition of taxes on alcohol.

LITTLE TICKS.

The Wires Flash the Day's News Into Our Office.

CHICAGO, Dec. 30.—The Rev. Walter Forsyth, a resident of Chicago for over forty-two years, and a well known Presbyterian minister, died at his home, No. 5,142 Stewart avenue, Englewood, at 10 o'clock, yesterday morning, in the fifty-sixth year of his age.

BLOOMINGTON, Ill., Dec. 30.—M. G. Patterson, of Decatur, who is the contractor for the brick work of the new buildingsat the soldiers' orphans' home, disappeared last Tuesday evening, and has not been seen since then. It is believed that he has been foully dealt with. He drew $1,000 from a bank that day to pay his employes, and about dusk took a street car for Normal.

PORTLAND, Ore., Dec. 30.—A ten-round glove contest, Queensbury rules, between James Corbett and Dave Campbell, a local champion, came off last night at the Mechanics' Pavilion and witnessed by 3,000 people. Honors were about evenly divided from the start. In the eighth, ninth and tenth rounds some hot work was done. The referee declared the match a draw.

VICTORIA, B. C., Dec. 30.—The first sealing schooner to get away for the yearly southern cruise was the schooner Triumph, which sailed Saturday with an experienced crew of seal hunters. The balance of the fleet will sail in a few days for their southern cruise. Far from being discouraged by last years seizures or by the non settlement of the Behring Sea dispute, sealing men here are active. More vessels will leave this port for the Behring Sea the coming season than ever before.

DENVER, Col., Dec. 30.—It is stated that S. H. H. Clark, general manager of the Missouri Pacific, has been tendered the presidency of the Union Pacific railway, Charles Francis Adams being anxious to resign the office.

LONDON, Dec. 30.—The bank of England's rate of discount has been advanced to 6 per cent.

ROCHESTER, N. Y., Dec. 30.—Otto Bolz, a photographer, committed suicide in the Elwager and Barry grounds. Family trouble led to the act.

BOSTON, Dec. 30.—Ex-Fire Commissioner Henry W. Longley died at his residence in this city early yesterday morning after a brief attack of pneumonia. Mr. Longley was afflicted with influenza last week and apparently recovered from the attack, when pneumonia set in, with fatal result.

CHICAGO, Dec. 30.—The report circulated this morning that a terrible wreck had occurred on the Illinois Central is now found to be untrue.

AN ARKANSAS STRANGER

Puts Bullets Into the Bodies of Two Noted Desperadoes.

TEXARKANA, Ark., Dec. 31.—On Christmas day, two noted desperadoes, Red Lendall and Choctawa Pete, rode into the town of Tishwawa.

They had been drinking and immediately took possession of the main street, firing their revolvers recklessly and driving everybody within doors.

While this was going on a well mounted stranger with a veritable arsenal around his waist, arrived. The new comer was supposed to be a comrade of the outlaws by the inhabitants, but it turned out he was a stranger.

When he went to hitch his horse Lindall cut the halter. The stranger protested, whereupon Pete covered him with a revolver and called upon Red to disarm him.

The stranger waited until the latter was close to him, when he drew his revolver and shot Lindall through the heart. He then opened fire on Choctaw Pete and sent two bullets into his head, killing him instantly.

The stranger offered to give himself up, but finding no one willing to arrest him, rode leisurely off. His identity is unknown.

SIEBOLD SUCCEEDS DIEBOLD.

John Siebold of the Sixth Ward, Is Appointed a Policeman.

This afternoon the police commissioners met and appointed John Siebold, of the Sixth ward, to succeed Henry Diebold on the police force.

Mr. Siebold is well adapted to wear the star and is a steady and worthy young man.

He will be assigned to duty shortly.

He was formerly a leader maker in the Wabash shops.

ELEVEN CREMATED.

The Burning of a Dwelling at Huronstown, Mich., Results in the Death of Eleven Persons.

ISHPEMING, Dec. 30.—At Huronstown, a town near Houghton, Mich., where two women and a baby were burned to death a few days ago, eleven persons perished by fire yesterday morning. Theodore Grass, aged fifty-seven, and his wife, Mary, aged forty-seven, returned from an old people's dance early in the morning. Their son, Theodore, jr., returned from his work in the stamp-mill a short time afterward. All went to bed.

A quarter of an hour later Theodore, jr., heard screams in his sister's room. He and his brother, Nicholas, aged seventeen, attempted to reach the next room, but the flames drove them back. With bare feet and hands they broke the glass and sash of the only window in the room, and jumped to the ground, attired only in their night shirts. A terrible blizzard was raging, and they could not break the windows.

They then rushed to a neighbor's for help. The fire was extinguished an hour later and to-day eleven bodies were recovered. They were the remains of Theodore and Mary Grass and their children, Kate, John, Antoine, Mary, Lena, Lizzie, Joseph and Michael, and Lena Erb, of Lake Lindou, Mich., who was visiting the girls of the Grass family. The bodies are in a temporary morgue at the Houghton fire engine house.

CHICAGO'S ALL RIGHT.

La Grippe Has Not Made Its Appearance in That City.

CHICAGO, Dec. 30.—The Russian influenza has not yet made its appearance in Chicago. This is the opinion of the medical men of the city, many of whom were interviewed by the *Herald* yesterday. The doctors were unanimous in saying that the reported cases of the disease that have stirred up the town during the last week were nothing more than plain, ordinary, every-day colds.

NEW YORK, Dec. 30.—The prevailing epidemic of influenza, has taken a firm hold upon the police force of this city. The returns for to-day show that 295 members of the force have reported sick and at least two-thirds of that number are laid up with "LaGrippe."

SARA FAINTED.

A Fire in a Paris Theatre Frightens Mme. Bernhardt.

PARIS, Dec. 30.—The pyre to be used in the play of Joan d'Arc by Sara Bernhardt, became ignited last night by the surrounding fire during a dress rehearsal. Mme. Bernhardt, who was on the pyre, received no injury. She fainted from fright, however. Two scene shifters were seriously burned in their efforts to extinguish the flames.

LONDON, Dec. 30.—The article by Mr. Gladstone favoring a revival of confession in England, was written forty-five years ago. Mr. Gladstone has requested the editor who just published it as representing the authors present views, to explain his unauthorized action.

COLONEL DUDLEY.

He Need Not Expect Any Favors From New York Courts.

NEW YORK, Dec. 30—Judge Lawrence of the supreme court, handed down a short opinion in the chambers to-day in which he says, in effect, that Colonel W. W. Dudley, who is suing half a dozen New York newspapers for alleged libel, in the publication of the "blocks of five" letter, can not expect favors from the court when he persistently refuses to obey its orders.

The motion by the plaintiff to vacate an order for substituted service on him of an order for his examination before trial to enable the defendant to prepare an answer, is denied.

More Cronin Suspects.

CHICAGO, Dec. 30.—States Attorney Longenecker said that he had secured considerable evidence against four or five other men who were suspected of complicity in the Cronin murder conspiracy, and that he might before long take steps to have them indicted and brought to trial. He declined to mention their names at this stage of the matter.

A Convict Re-Captured.

JEFFERSONVILLE, Dec. 30.—Clay Davidson, the notorious convict who instituted a hide-out, was found Saturday. He was under a pile of moulding decks nearly dead for want of air.

Mr. Samuel Foster left for Indianapolis to-day.

The population of Japan is just under 40,070,000.

HARD CIDER.

It Turns the Heads of Women—Boys Arrested For Larceny.

There was a lively police court this morning.

Emma Johnson and Alice ——— looked upon the cider when it was hard, then unwisely left their domestic haunts to find trouble. They were gratified. At the corner of Calhoun and Main streets a third party of female persuasion met the pair, as a result of which meeting a spirited argument arose, followed by a Simon-pure female hair-pulling and nail-scratching engagement. At this juncture Lieut. Leonard Fuchshober appeared, when upon the third party escaped. The above two were locked up and this morning pleaded guilty and paid a fine of $1 and costs for drunkenness.

Officer O'Ryan placed Dan Schantz and Frank Grubbs under arrest on suspicion of having been necessary to the theft of some whisky, cigars, etc., from the grocery and saloon of John Sheffer & Co., on Grand street. Both boys were bound over in the sum of $500 to await the arrest of two other youthful pals for whom affidavits are made out.

Thomas Carey and John Harrison arrested by Officer Patton and John Shea arrested by Officer Limecooly were sent to jail for intoxication.

DANGER OF FIRES.

The Fire Engine Prevented From Reaching a Fire by Muddy Streets.

The fire department responded to two calls yesterday or rather one portion of the department did.

Shortly before noon a chimney fire at the residence of Caroline W. Phillips, corner of Main and Ewing streets, called the department.

About 5 o'clock in the evening an alarm was sent in from box 6 2, which proved to be another chimney fire at the residence of Henry Werner, 24 Locust street. The streets were so absolutely muddy that the engine team could not proceed more than a few blocks. That part of the apparatus was returned to the engine house.

The fire engine weighs, with three men, something like 4,000 pounds, or nearly three tons, which easily explains why such difficulty was met with.

While the city has such muddy streets to hamper the department it is a dangerous time for a visitation of the fire fiend.

FAVORED BY A KING.

King Alfred, of Saxony, Responds to the Request of a Fort Wayne Admirer.

Mr. Truenbach, issue of Fort Wayne's German citizens whose patriotism for the star and stripes is as enthusiastic and fervent as many who have never seen other than American soil.

He has in his home a portrait of Grover Cleveland and as a fitting companion-piece he tried to secure the likeness of King Alfred, of Saxony. But photos of King Alfred are not standard publications, and after he had almost despaired of securing his coveted prize, he indicted his request to the king himself at Dresden, to the effect that the recipient of the letter would give the same attention.

This happened two months ago. The matter had almost been forgotten when the picture of King Alfred arrived yesterday. It is a superb photo, two and a half feet high, executed by the court photographer, and encircled with a beautiful gold frame of oval form with the royal crest on the bottom. The picture was accompanied by a letter from Consul Pollier. Mr. Truebenbach is very proud of his treasure and will probably present the picture to the German military society.

MONDAY, DEC. 30, 1889.

SECURE your calendar for 1890.

FIRES have burned $400,000 worth of churches in the last year.

YESTERDAY dawned with spring day weather, but ended rather windy.

THE Rev. Edward Abbott, who has been elected missionary bishop to Japan, is said to be the original "Rollo," of the "Rollo books," written by his father, Jacob Abbott.

THE ice men are not wearing a very cheerful smile over the prospects for a supply of the congealed liquid for next summer's demand. The supply now is nearly exhausted and unless there is a good spell of very cold weather from now on, ice will be at a premium next summer.

SOUTHERN papers are protesting, and justly, against the fashion northern newspapers have of naming every negro brawl "a race war." The northern states furnish six to one more Christmas tragedies sprung from drink, than the states of the south, but they are not distinctively classified and named.

ROBERT BROWNING, it now appears pretty well established, was of Hebrew origin. His mother's maiden name was Wiedemann. His father was a trusted clerk, of the Rothschild at a time when the famous firm was supposed to employ none but persons of their own faith. But the family passed for Dissenters. The poet always took the keenest interest in Jewish history and legend.

THE SENTINEL is not opposed to the paving of the streets of the city. It believes that every street within the limits of the corporation should be placed in the best possible condition. It is in favor of any improvement that will add to the convenience of our people or advance the welfare of the corporation, but in making any improvement where the expenditure of a large amount of money is concerned, it cautions careful consideration before increased taxation is incurred.

THE Augola *Herald* says: "It is a mistake on the part of certain of the democratic press to attempt to make it appear that there is an effort on the part of P. S. O'Rourke to defeat Hon. C. A. O. McClellan's renomination. Both these gentlemen are sound democrats and have too much good sense to enact another Lowry scene. It is safe to say that when the proper time comes there will be harmony between these gentlemen and personal desires will be sacrificed in the interest of democracy."

CAPTAIN O'SHEA, ex-member of the English house of commons, has filed in London a petition for divorce from his wife on the ground of adultery, naming Charles Stewart Parnell as co-respondent. It is the generally accepted theory that the action brought by Captain O'Shea, ostensibly against his wife, but really against Mr. Parnell, is purely a political move, and the suspicion is growing that the captain was induced to spring the suit just at this time in order to counteract the effect of the report of the special commission respecting the forged letters. For O'Shea himself nobody has had a particle of respect.

THINK ABOUT IT.

The old year has but one more day to run. To-morrow's sun will arise and set and when it comes above the eastern horizon again it will dawn upon a new year. It will be a day fraught with interest and importance to the business world. Men will review their business transactions of the year, strike a balance on the debit or credit side, and make new plans and a new start for the year which they will then enter.

It is also a time when many men put into effect new resolves as to their manner of living. Habits, which have been ruinous, are dropped and they begin a new life. They may have been the slaves of rum before. They resolve with the coming of the new year to shake the habit and be a victim to it no more. Such a resolve, if kept, will prove a blessing to any man. Listen, while we tell you what Tom Marshall said about sobriety, but first let us tell you who Tom Marshall was.

Tom Marshall was a congressman. He was a brilliant man—large-hearted, noble and generous—but like so many of the gifted men of our nation, he fell a victim to the wine cup. He was a hard drinker and while in congress it was wrecking his life, but one winter a congressional temperance society was formed and Tom Marshall joined it. Some time afterwards he made a speech at one of its meeting, and used this sentence, which is said to be the longest on record:

SIR: I would not exchange the physical sensations, the mere sense of animal being, which belong to a man who totally refrains from all that can intoxicate his brain or derange his nervous structure, the elasticity with which he bounds from his couch in the morning, the varied repose it yields him at night, the feeling with which he drinks in, through his clear eyes, the beauty and the grandeur of surrounding nature; I say, sir, I would not exchange my sensations being as a strictly temperate man, the sense of renovated youth, the glad play with which my pulses now beat healthful music, the bounding vivacity with which the life blood courses its exulting way through every fibre of joy frame, the communion high which my healthful ear and eye now hold with all the gorgeous universe of God, the splendors of the morning, the softness of the evening sky, the bloom, the beauty, the verdure of the earth, the music of the air, and of the waters; with all the grand associations of external nature re-opened to the fine avenue of sense; no, sir, though poverty dog me, though scorn pointed its slow finger at me as I passed, though want and destitution and every element of earthly misery, save only crime, met my unkenning eye from day to day; not for the brightest and the noblest wreath that ever encircled a statesman's brow; not if some angel commissioned by heaven or some demon sent fresh from hell to test the resisting strength of virtuous resolution, should tempt me back with all the wealth and all the horrors which a world can bestow; not for all that time and earth can give would I cast from me the precious pledge of a liberated mind, this talisman against temptation, and plunge again into the dangers and horrors which once beset my path, so help me heaven, as I would spurn beneath my very feet all the gifts the universe could offer and live and die as I am, poor but sober.

REV. W. M. VANSLYKE

Delivers an Impressive Talk at the Y. M. C. A.

Rev. W. M. VanSlyke, the pastor of the Berry street M. E. church, conducted the services at the City department of the Young Men's Christian Association yesterday afternoon and delivered a discourse that was full of interest and power.

He took no text nor did he announce his subject but it was soon seen, from the nature of his remarks, that his theme was Bible reading. The Bible, he said, was apt to be, by many persons, the least read of all books and yet it was one of the supremest interest and importance to the world and should be properly read and carefully studied.

It revealed the will of God and told of the rich legacies that he had given to man. It was a prescription, more valuable and more precious than any ever written by a physician's hand, for it cured the greatest of diseases—sin. It was a map. On the tempestuous sea of life, where the frail human bark was in danger of being wrecked, it revealed the safe path. It guided the mariner over the waves and past danger points and brought him at last to the port of Heaven.

He urged upon his hearers the reading of the holy book in a studious and understanding way. Christians did not study it enough. It was the best of books and we should learn all of its precious promises to us. Accompany the reading with prayer and ask God for blessings with the expectation of getting them, but do not stop there. Go and work for the blessings asked and God will shower them down on you and help you to bring others within the fold of Christ.

The address was an earnest, eloquent one and had the effect of making a very interesting after meeting, in which a number of other persons participated.

THE STATE'S FINANCES.

Exhibit of Money Received and Expended Called For by the Superintendent of the Census.

In compliance with a request from Hon. Robert P. Porter, superintendent of the eleventh census, the state auditor has prepared a statement of all financial matters connected with the state government from October 31, 1880, to October 31, 1889, both years included. The blank was forwarded from the census bureau at Washington and is designed to cover the receipts and disbursements for the period named. Similar statements are, no doubt, being obtained from all the states of the Union, to be incorporated in the report of the bureau. The following summary contains the more important totals of the several items of receipts and expenditures, as shown in the auditor's statement:

RECEIPTS.

General taxes, real, personal and poll	$28,548,611
Corporations and companies	790,181
Bonds about paying taxes	176,863
Penal and reformatory institutions	1,069,533
Sales of property	84,295
The income from funds	4,940,256
Miscellaneous	3,901,424
Net receipts	$40,707,164

EXPENDITURES.

Legislative	$ 696,981
Executive	475,647
Judicial	2,906,854
Military	33,253
Educational	3,735,305
Common schools	19,617,625
Reformatories and prisons	4,046,919
Penal and reformatory institutions	2,733,539
Construction of buildings	1,295,549
Interest on state debt	4,118,743
Miscellaneous	2,953,375
Net expenditures	$40,377,175

The several loans made by the state since 1889, aggregating $3,600,000, are included in the miscellaneous receipts, but the loan of nearly $4,000,000 under the refunding of the common school bonds is not reckoned at all, as it was simply changing the form of the debt which the state owed to itself. A distinction is made between money paid out in support of the colleges of the state and that going to the support of the common schools, for the reason that the funds are dissimilar in every particular. Adding the two items, "educational" and "common schools," found in the disbursement table, it will be seen that the state has paid out $20,-151,749 for education in the last ten years, an average of something in excess of $2,000,000 annually.

EXPERTS WITH THE GUN.

The Beck-Erb Contest for the World's Championship Cup.

The match between George C. Beck, of Indianapolis, and Fred Erb, of Lafayette, champion of the world, will occur at the latter place Wednesday, February 12. It is for the world's championship cup, which Erb won from Charles Budd last month, and $50 a side. The match will be at fifty live pigeons, with thirty yards rise and eighty yards boundary. Five traps will be used, and Hurlingham rules govern. The event is exciting much comment, and a number of interested friends of both gentlemen will go to Lafayette from this city, to witness the important contest.

Eight Men Lynched.

CHARLESTON, S. C., Dec. 30.—A mob of several hundred masked men, broke open the Barnwell county jail at 2 o'clock Saturday morning and overpowered the jailer. They seized Ripley Johnson and Mitchel Adams, two murderers of James Heffernan, and six men held for the recent murder of Robert Martin, at Martin's, Barnwell county.

They were marched to the outskirts of the town, and in a few minutes the men were bound to the body of right trees. The masked men then formed a line a short distance from them and poured volley after volley into the bodies of the negroes. The firing was the first intimation the people of the town had of the trouble. It seemed then as if the negroes would rise up and avenge the lynching.

Saturday the state teachers' association closed its sessions. The paper upon the school system of Germany by H. M. LaFollette, superintendent of public instruction, delivered at that time, was considered a valuable contribution. The schools in Germany, he said, were divided into four classes, the volk schule, the raal, the gymnasia and the universities. An excellent and systematic method of instruction in music, industrial arts, gymnastics and religion was in vogue, and the length of a teacher's service, which is twenty years, is five times as long as the usual service of American teachers. Professors Dryer, Lane and others from this city were present.

J. E. Clarke, an aged resident of Kokomo, while suffering from a partial paralytic stroke, went to George Weykle's bath rooms, Friday night, to take a bath. He was assisted by Weykle, as he was almost helpless. Weykle turned on the gas full force and went to do something else while the water was getting warm. He forgot all about Clark, and, after some time, looked the bath room door and left the house. The gas was turned on full and Clark was so helpless that he could not turn it off or escape. Saturday morning the body of the old man was found thoroughly cooked and roasted in the bath. Weykle, it is claimed, is weak-minded.

Mr. Curtis declares in the last number of *Harper's Weekly* that Grover Cleveland is the most popular living American.

Love rules the court, the camp, the grove,
But this we find where'er we rove,
That SOZODONT alone supplies
The dazzling teeth and ruby dyes,
That lend a maiden half the charms
That win's her to her lover's arms.

Lord Macaulay's executors have in their hands some unpublished ballads of his that he wished should not be published.

Mr. Moore, the postmaster at Bradshaw, Va., after reading an advertisement of Chamberlain's Colic, Cholera and Diarrhœa Remedy, concluded to try a small bottle of it. He says: "I used it in two cases for colic and three for diarrhœa with perfect satisfaction. One dose gave relief in every case but one, and that was a bad case of colic and required the second dose. I have handled a great deal of patent medicine as agent and for my own use, but never tried any that gave as good results as 'Chamberlain's Colic, Cholera and Diarrhœa Remedy.' For sale at 25 and 50 cents per bottle by George H. Lossob.

The rainfall during autumn, 1889, was in excess. The precipitation during September, 1889, was 0.48 inches in excess; that of October was 0.98 inches deficient and November 1.23 inches in excess, therefore the excess in precipitation during the autumn was 1.09 inches. The normal temperature for autumn in Indiana, based upon eighteen years' observations, is 53.6. Nine autumns had a higher temperature than that, and nine lower. The mean temperature for the autumn of 1889 was 50.7, the autumns only two years, 1873 and 1880, having been cooler.

HERE IT IS!

The famous neverslip horse shoe with patent removable, steel centered, self sharping calks, he gained the day and can be found in our city.

Some of the main advantages which have commended it to popular favor, may be summarized, as follows:

1. It never slips in any direction.
2. The horse soon learns this fact, and consequently, whether pulling or trotting, will always do his best.
3. It saves the horse from sprains and bruises which constantly result from insecure footing.
4. It avoids the injury to the horse's feet caused by a too frequent resetting of the shoes.
5. It greatly lessens the danger of injury from walking.
6. It saves the time, both of the horse and owner, as the insertion of new and sharp Calks is the work of only a few minutes.
7. Its use facilitates all kinds of business. Livery keepers, and all whose horses are in constant requisition, are enabled by the use of this shoe to meet their engagements promptly, however slippery the traveling may be.

Owing to the great demand for this shoe, Geary & Perrey, the horse shoers, successors to Ersig & Geary, secured the agency for Fort Wayne, and are prepared to supply all sizes of calks and wrenches, &c., to persons desirous of using them.

The reputation of Geary & Perrey, as horse shoers, is second to none in the city, and their endorsement of this shoe, guarantees satisfaction. Call on them for further information at

The True Elixir Of Life Hood's Sarsaparilla

Hood's Sarsaparilla purifies the blood, builds up weak and debilitated systems, gives strength to weakened nerves, overcomes that tired feeling, tones the digestive organs, invigorates and regulates the kidneys and liver, expels disease and gives vigorous health. Young people say: "It is the best medicine we ever took." Old people say: "It makes us feel young again."

MONDAY'S DULLNESS.

Shows Itself in the News as Found Around the Busy Centers and the Budget is Uninteresting.

It was a dull day around the depots.

Holiday travel on the railroads is very light.

Many of the shop men are off on holiday vacations.

Most of the manufactories will work on New Years day.

Conductor G. P. Davis is spending the holidays at Chicago.

Ed Luke, of the Bass works, has returned from a visit to Ohio.

George Read is acting as conductor on the Pittsburg during the holidays.

Harry Hayes, machinist at the Bass works, has returned from Richmond, Ind.

Bert Baughman, of the Nickel Plate, has been off duty on account of rheumatism.

Frank Lonsberry, of White's wheel works, has returned to work after a few days' illness.

Robt. Holland, of the Pennsylvania company, has been at Crestline, Ohio, the last few days.

O. W. Cook, agent of the Nickel Plate at New Haven, is spending the winter in California.

Fred Olds has returned from Ohio, and resumed his position in the Pittsburg machine shops.

H. G. Barner, of the Jenney, has been off duty for a few days from injuries received to his fingers.

C. M. Jones, clerk at the Pittsburg freight office, has gone to Bucyrus, Ohio, for a few days.

Thomas Dorwin, Canadian passenger agent of the Missouri, Kansas and Texas railroad, is in the city.

P. S. Gilmore, of Chicago, general northern agent of the E. T. V. & G. railroad, is in the city.

Seventy-three repaired cars and twenty-one new cars were turned out of the Pittsburg car shops last week.

John Malt, of White's wheel works, is suffering from injuries received to a finger, by a splinter from a spoke

On account of the recent rains and mild weather for winter the road beds of some of the roads are considerably increasing their forces of section men.

Conductor Thorpe, of the Pittsburg road, is entertaining his brother, Fred Thorpe, who is connected with the Postal Telegraph company, at Pittsburg, Pa.

According to figures recently furnished by a celebrated statistician, the republic of the United States is the third richest country per capita on the globe, there being $800 for each inhabitant. A good many of the readers of this column are wondering, with our reporter, where their share is.

The New York, Chicago and St. Louis (Nickel Plate), which is practically a freight line, will show, this year, an increase in net earnings of fully $25,000, most of which has been made in the last four months, as the statement on September 30 showed an increase this year of only $7, 180.

"Is there anything new?" asked our reporter of U. J. Matsch, chief clerk in Superintendent Pickard's office, at the Bass works, this morning. "No," was the reply, "but there will be Wednesday." "What?" quickly answered the scribe, eager to get on item two days in advance. "The new year," coolly answered Matsch, and he went on writing at his books as if there was no joke intended.

Car-coupling can be deprived of its present frightful risk by an expenditure of $4 a car, say $4,000,000 on cars which this year earn not less $700,000,000. This will save annually at least 500 lives, 4,000 severe injuries and 15,000 slight wounds, or the casualities of a great historic battle with 60,000 men engaged. The railroads of the United States ought to be willing to do this without an act of congress.

The promotion of George Stevens to the position of general superintendent of the Chesapeake & Ohio road was gratifying news to his numerous friends in Indiana and Illinois, where he is so well known. Should he take some good men off of the Wabash road for the less important offices under his supervision it will not be a surprise. The office was a newly created one on that road, and the selection of Mr. Stevens to fill it by President Ingalls is very complimentary to the former.

Low Rate Tickets via the Pennsylvania Lines.

Holiday excursion tickets, at low round trip rates, will be sold from all ticket offices of the Pennsylvania lines west of Pittsburgh on December 24th, 25th, 31st, 1889, and January 1st, 1890, good going on date of sale and returning until January 3d, 1890. 20cd.td.

BURNED BY GAS.

Christian Haffner, the Baker, Lights Natural Gas His Own Way.

Yesterday, Mr. Christian Haffner, the baker, went down into the basement of his new bakery, on East Lewis street, to light the natural gas under the ovens.

He turned on the gas first, unthinkingly, applied the match and ——! There was an explosion, although not a severe one. However, Mr. Haffner was burned about the face and hands, causing ugly blisters of a painful nature to form on several spots.

"Flame first; gas afterward."

THE women of Kansas do not mean to be left in the background. They put prohibition in the Constitution, they have full municipal and school ballot, coeducation in its State University, and the number of women preachers, doctors, and lawyers is larger than in any other State. The Assistant Attorney General is a woman, and women are farmers, bankers, County School Superintendents, editors, printers, and merchants. Women serve on the School Boards in every county, and there are women Treasurers of School Boards, Superintendents of Schools, Registers of Deeds, and at Cottonwood Falls the Police Justice is a woman.

THE King of Siam is a magnificent object in state attire. He glistens from head to foot with jewels worth more than $1,000,000. It is commonly reported in Bangkok that he has three hundred wives and eighty seven children, though the exact figures have never been given to his subjects. He was a father at the age of twelve, and is now only thirty-six years old. If he lives a few years more he will be able to assume the title of "father of his country." The King is a good fellow, fond of a reasonable number of his children and very kind to his three hundred wives. He is very progressive and has done a great deal of good to Siam.

THE Century Publishing Company consumes nearly 200 tons of paper a month, and their paper bill amounts to about $300,000. Harper Brothers, for their illustrated papers and magazines, use annually about 25,000 reams, besides vast quantities of book paper for other publications. The Arkells use 30,000 reams annually for *Judge* and *Frank Leslie. Puck* requires about 12,000 reams per year.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

"It's always the survival of the quickest," said the cow-boy as he put up his smoking revolver, having shot his antagonist dead.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER Co., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

Mrs. Jason—No, only the better half of one.—*Terre Haute Express.*

Beauty and Utility.

No more appropriate or useful Christmas present can be given by a parent to a son or daughter than a Caligraph Type Writer. The time is not far distant when a type writer will be found in every intelligent home. The educational value of a type writer is unquestioned. It assists in learning to spell correctly, and results in a close observation of the construction of sentences, and helps to form the habit of composition. W. E. McDermut is the Fort Wayne agent for the Caligraph, which embraces the latest and best improvements in writing machines. Call and get samples, and see the machine in actual operation. 14 jan1.

California Excursions.

The Wabash railroad is now prepared to sell for the coming season round trip tourist tickets to all principal Pacific coast points, giving a wide choice of routes both going and returning, and an extreme return limit of six months. The Forum.

A MONTHLY REVIEW OF LIVING SUBJECTS

By the Foremost Writers in the World.

JOHN G. CARLISLE.

THE FORUM has won the highest place reached by any periodical; for it publishes articles by more authoritative writers and by more workers along instructive lines of activity than any other publication. It contains eleven studies of great subjects every month. It is impartial, giving hearing alike to each side. It is financially independent, and it belongs to no sect or party or "interest." It is never sensational, but it aims always to be instructive.

I consider THE FORUM as furnishing the most intelligent and sympathetic audience that a thoughtful writer can find to address on any land.—*Prof. ALEXANDER WINCHELL, of the University of Michigan.*

THE FORUM continues to hold its place as the foremost of our magazines, for the variety, the value, and the weight of its contributions.—*THE NEW YORK TIMES.*

Announcements of forthcoming articles can seldom be made long in advance, for THE FORUM'S discussions are always of problems of present concern. Every such problem that the year 1890 will bring forward will be discussed, whether in politics, or religion, or social science, or practical affairs. The January number will contain a reply by ex-Speaker J. G. CARLISLE to Senator Cullom's recent article on "How the Tariff Affects the Farmer."

FRANK WELLING RESIGNS.

One of Coombs & Co.'s Efficient Men Drops Out to Engage in Business.

Mr. Frank Welling, who for many years past held a prominent position with Coombs & Co., resigned last Friday, the same taking effect the following day.

The announcement caused much surprise, as Mr. Welling held a foremost position of responsibility and trust in the establishment.

Mr. Henry J. Beuret, of the Coombs offices, will in all probability succeed Mr. Welling, as he is competent and worthy. If the place does not fall to him a gentleman from Chicago will be the man.

Mr. Welling has been to Coombs & Co. an energetic and faithful representative and much of the prestige was through his influence. He retires to engage in business for himself, but of what nature he was not prepared to inform a SENTINEL reporter to-day as a matter of news. However, it is said that he will engage in a business similar to that with which he has been connected.
